| Common Name | Latin Name | Zone | Height (cm/m) | Width (cm/m) | Native Species | Description | Price/(# in Stock) |
| Korean Feather Reed Grass | Calamagrostis arundinacea var. brachytricha | 5 | 1 - 1.2m | 60cm | | Species native to Central & E. Asia. Warm season grass, blooms late summer. Upright form, wider (1/2") blades . Fluffy, bottlebrush blooms are purplish-red when first flowering, fading to greenish-tan and lasting into winter. Great cut flowers. Prefers rich, moist soils that do not dry out. Full sun to partial shade. Deer resistant. | 18.95 (21) 24.95 (4) |
| Eldorado Variegated Feather Reed Grass | Calamagrostis x acutiflora 'Eldorado' | 5 | 1.5m | 60cm | | Hybrid cross between two species native to Europe & Asia. Cool season grass, blooms early summer. A sport of 'Karl Foerster', with upright form. Bright gold midrib within narrow green leaves. Feathery, tan wheat-like seed heads which last into winter. Blooms early summer. Prefers rich, moist soils that do not dry out. Deer resistant. | 24.95 (4) |
| 2001 Perennial Plant of the Year Karl Foerster Feather Reed Grass | Calamagrostis x acutiflora 'Karl Foerster' | 4 | 1.2-1.5m | 60cm | | Hybrid cross between two species native to Europe & Asia. Cool season grass, blooms early summer. Upright form. Narrow, dark green leaves, blooms purplish-green feathery plumes, which mature to stiff, tan, wheat-like seed heads, lasting into winter. Prefers rich, moist soils that do not dry out. Deer resistant. | 18.95 (60) |
| Lightning Strike Variegated Feather Reed Grass | Calamagrostis acutiflora 'Lightning Strike' | 4 | 1m | 0.6 - 0.9m | | Clumping, upright habit. Lovely foliage has a broad central creamy-white stripe edged in green. Sterile flower plumes emerge green in early summer, changing to pink, then purple, maturing to golden tan in autumn. Persistent form during winter months. Prefers rich, moist soils that do not dry out. Deer resistant. | 18.95 (41) |
| Overdam Feather Reed Grass | Calamagrostis x acutiflora 'Overdam' | 5 | 1.5m | 30 - 60cm | | Species native to Central & E. Asia. Upright form, variegated foliage opens green with creamy-white margins, fading to white with a pink flush. Foliage remains at about 60cm tall, with height extended by feathery, erect pinkish-green plumes in early summer, maturing to sand-coloured seed heads. Full sun to partial shade. Rich, moist soil that does not dry out. | 24.95 (24) (10) JB |

| Common Name | Latin Name | Zone | Height (cm/m) | Width (cm/m) | | Description | |
| Silver Sceptre Variegated Sedge | Carex morrowii 'Silver Sceptre' | 5 | 20-30cm | 30-45cm | | Dense, arching clump of variegated, green leaves with white edges. Greenish-brown flower spikes on triangular stems in mid-spring. Excellent as an accent or a showy mass planting in a moist, shady spot. Partial to full shade, rich, moist, well-drained soil. | 18.95 (15) |
| Northern Sea Oats | Chasmanthium | | | | | Deer Resistant - Full sun to partial shade | |
| Northern Sea Oats | Chasmanthium latifolium | 5 | 1m | 45cm | | Native to Central and Eastern North America. Gracefully arching stems hold flat green spikelets on slender stems, like dangling jewels. Seed heads turn purplish-bronze by late summer, then tan. Drought tolerant once established, full sun to partial shade. Great in cut flower arrangements. | 18.95 (27) |
| Tufted Hair Grass | Deschampsia | | | | | Cool season, blooms mid-summer - Partial to light shade | |
| Tufted Hair Grass | Deschampsia cespitosa | 4 | 100cm | 80cm | | Flowers showcase green, purple, silver and gold tones over a dense mound of green blades | 18.95 (12) NVK |
| Gold Veil Tufted Hair Grass | Deschampsia cespitosa 'Goldschleier' | 4 | 80cm | 60cm | | One of the first to bloom - semi-evergreen mound of green leaves display tall, airy, bright yellow flowers spikes. | 18.95 (18) NVK |
| Northern Lights Tufted Hair Grass | Deschampsia cespitosa 'Northern Lights' | 5 | 30cm | 45cm | | Cool season grass, semi-evergreen. Clump-forming, compact variety, with fine, green leaves with narrow, creamy-white margins, taking on a pink-blush tone in cooler temperatures. Light-green inflorescence rises 50cm tall, forms a cloud above foliage, ages to tan, persists into winter. Partial shade to light shade, in humus-rich, moist, well-drained soil. Excellent massed in woodland or naturalized areas. | 18.95 (33) |
| Purple Love Grass | Eragrostis | | | | | Native to North America, Maine to S. Dakota | |

| Blue - New 2025 | | | | | NS | | Blue - New 2025-Supplier |
| Common Name | Latin Name | Zone | Height (cm/m) | Width (cm/m) | Native Species | Description | Price/(# in Stock) |
| Purple Love Grass | Eragrostis spectabilis | 5b | 30-60cm | 30-60cm | | Flat, basal clump of green leaves. Beautiful, soft, fluffy, airy cloud of reddish-purple flowers in August, are held above foliage, turning brown by Oct. Excellent in flower arrangements. Full sun, in light, well-drained soil. Drought tolerant. Intolerant of heavy, wet soil. Good for naturalizing, will self-seed. | 12.95 (12) |
| Fescue | Festuca | | | | | Native to Central & Southern Europe - Evergreen - Cool season grass, blooms in summer - Drought tolerant - Full sun, well-drained soil | |
| Beyond Blue Fescue | Festuca glauca 'Casca11' (Beyond Blue) | 4 | 20-30cm | | | Spiky clump of intense icy blue, quill-like blades that remain breathtaking all year round. Normal to sandy soil in full sun. | 16.95 (4) 18.95 (2) |
| Blue Whiskers Fescue | Festuca glauca 'Blue Whiskers' | 4 | 25-30cm | 60-70cm | | Spiky, icy-blue clump of semi-evergreen foliage. Yellow-green flowers on 60-70cm tall scapes in early summer. Vigorous habit. Full sun, well-drained soil. | 16.95 (4) 18.95 (12) |
| Cool as Ice Fescue | Festuca glauca 'Cool as Ice' | 4 | 30-40cm | 30-50cm | | Erect, tufting, arching habit forms a dense, uniform, semi-evergreen clump. Emerges a grey-green but quickly turns to an icy blue. Tight, formal seed spikes emerge green and age to a tan colour. | 18.95 (2) |
| Elijah Blue Fescue | Festuca glauca 'Elijah Blue' | 4 | 20-25cm | 45cm | | Cool season grass. Semi-evergreen, icy blue foliage forms a dense, spiky clump. Cut back to 4" in spring. Maintains good summer color. Light-green flowers rise above foliage, early-summer, turning to buff-coloured seed-heads. Makes a great groundcover, plant 20-25cm apart. Full sun, well-drained soil. | 16.95 (2) |
| Japanese Forest Grass | Hakonechloa | | | | | Native to Japan - Partial to light shade - Rich, moist, well-drained soil | |
| Green Forest Grass | Hakonechloa macra | | | | | | 14.95 |
| All Gold Japanese Forest Grass | Hakonechloa macra 'All Gold' | 5 | 50cm | 45 - 60cm | | Arching, graceful, mounding foliage. Chartreuse in the shade, more golden in morning sun. Moist, well-drained soil. | 18.95 (2) 13.95 (3) 14.95 (190) (72) Li |

| 2009 Perennial Plant of the Year | | | | | | | |
| Aureola Japanese Forest Grass | Hakonechloa macra 'Aureola' | 5 | 30cm | 1m | | Leaves are golden yellow with green stripes, arching, pendulous habit. Needs partial shade to full shade, rich, moist well drained soil | 13.95 (4) 14.95 (72) Li |
| Beni-Kaze Japanese Forest Grass | Hakonechloa macra 'Beni-Kaze' | 5 | 45cm | 0.6 - 1m | | Brilliant yellow, cascading leaves, accented with green stripes. Develops reddish highlights as the season progresses, turning red & purple shades by fall. | 12.95 (2) 18.95 (4) 14.95 (5) 18.95 (24) VN |
| Sun Flare | | | | | | | |
| Blue Oat Grass | Helictotrichon | | | | | Native to France, Italy - Evergreen - Deer Resistant - Cool season grass blooms in summer - Full sun, well-drained soil | |
| Blue Oat Grass | Helictotrichon sempervirens | 4 | 60cm | 60cm | | Clump-forming, mounded, steel-blue, stiff, narrow leaf blades form a rounded, "porcupine-like" clump. Resembles blue fescue, but larger. Spikelets of bluish-brown flowers on taller stems rise above the clump in June, maturing to golden-wheat colour by fall. Full sun, well-drained soil. Evergreen, "comb through" to remove any brown leaf blades in spring. | 18.95 (4) |
| Sweetgrass | Hierochloe odorata | | | | Yes | NS Native species - Deer Resistant - Groundcover - Full sun to partial shade - Medium to wet soil. Salt tolerant. | |
| Sweetgrass | Hierochloe odorata | 4 | 60cm | 60cm | Yes | Aromatic, sweet vanilla scent, cool season grass. Very, vigorous spreading habit by underground rhizomes, 60cm per year. Yellow flowers in June. Sacred plant to First Nations. Used for weaving, medicinal. Prefers rich, wet to medium moist soil. Full sun to partial shade. Salt tolerant. Good for pond bank stabilization. | |
| Japanese Blood Grass | Imperata | | | | | Native to Japan - Deer Resistant | |

| Ornamental Grasses & Bamboo 2025 | | | | | | | |

| Red Baron Japanese Blood Grass | Imperata cylindrica 'Red Baron' ('Rubra') | 6 | 45cm | 30cm | | Bright red upright foliage, deep blood-red blades with rich green bases, full to partial sun, moist, well-drained soil. | 18.95 (23) |
| Lily Turf / Monkey Grass | Liriope | | | | | Native to China, Taiwan, Japan - Deer Resistant - Partial Shade - Rich, moist, well-drained soil | |
| Big Blue Lily Turf | Liriope muscari 'Big Blue' | 5 | 30cm | | | Blue flower spikes (resemble grape hyacinths) above blue-green (evergreen) grass-like foliage. Flowers give way to black berries. | 8.95 (9) |
| Monroe's White Lily Turf | Liriope muscari 'Monroe's White' | 5 | 60cm | 30-40cm | | Whorled, white flower spikes. Semi-evergreen, strap-like leaves. Dark-blue to black berries, persisting into winter. Slow-spreading, clump-forming habit. | 9.95 (48) |
| Silver Dragon Lily Turf | Liriope spicata 'Gin-ryu' (Silver Dragon) | 5 | 50-60cm | 30-45cm | | Whorled lavender flowers spikes. Semi-evergreen, straplike, arching, variegated green & white leaves. Slow-spreading, clump-forming habit. Dark-blue to black berries persist into winter. Prefers moist, fertile soil, partial shade. Prune off dead foliage, brown tips in spring. Heat & drought tolerant. | 12.95 (3) |
| Wood Rush | Luzula | | | | | Full sun to partial shade, consistently moist soil | |
| Ruby Stiletto Wood Rush | Luzula 'Ruby Stiletto' | 5 | 30-40cm | 30-40cm | | Cool season. Semi-evergreen, blue-green, arching, red-tipped blades. Airy clusters of white flowers above foliage early summer. Ruby-red fall foliage colour. Prefers consistently moist soil. Full sun to partial shade. Comb through foliage in spring to remove dead leaves. | 18.95 (11) |
| Snowy Wood Rush | Luzula nivea | 5 | 30-60cm | 30-40cm | | Tufted mound of hairy, grey-green leaves bearing stems of white flowers in late spring which later turn into brown seedheads. Good for edging in partial to shady areas. Moist, well-drained soil. | 16.95 (5) |

| Robust Clumping Bamboo | Fargesia robusta | 6 (-20C) | 5m | 5m | | Native to China. Tall, clump-forming bamboo with an open, graceful habit. Deep-green culms grow very upright, 2.5cm (1 inch) diameter. Whitish culm sheaths remain on through early summer, creating an alternating pattern of light and dark. Glossy, deep-green leaves. Two crops of new shoots, one in early spring and a smaller second flush in early fall. Good in sun or light shade. Rich, moist, well-drained soil. Makes an excellent screen. | 39.95 (16) |
| Green Screen Tall Clumping Bamboo | Fargesia robusta 'Pingwu' (Green Sheen) | 6 (-20C) | 3 - 5m | | | Native to China. Tall, clump-forming bamboo. Culms tall and slender. Very rich, deep green, maturing to yellowish-green. Nodes not prominent. Culm sheaths usually retained until end of summer. Multiple branching. Leaves medium-long, narrow, rich, dark-green glossy on upper surface. Sun or shade. Tolerates drought. | 69.95 (5) |
| Green Panda Short Clumping Bamboo | Fargesia rufa 'Oprin's Selection' (Green Panda) | 5 (-23C) | 1 - 2m | 2 - 2.4m | | Native to China. A selection of F. rufa very heat tolerant and hardy. Short, clump-forming bamboo. Short, very slender culms. Bright green, becoming yellowish-green, glossy. Nodes not prominent. Upright when young, developing moderate arch later on. Reddish culm sheaths, retaining colour for a time. Multiple branches. Leaves short, very narrow. Glossy, rich green on upper surface, dull grey-green underneath. Sun or shade. Great in a container or attractive low hedge. | 69.95 (22) |
| Short Clumping Bamboo | Fargesia rufa | 5 (-23C) | 1 - 2m | | | Native to China. Short, clump-forming bamboo. Short, very slender culms. Bright green, becoming yellowish-green, glossy. Nodes not prominent. Upright when young, developing moderate arch later on. Reddish culm sheaths, retaining colour for a time. Multiple branches. Leaves short, very narrow. Glossy, rich green on upper surface, dull grey-green underneath. Sun or shade. Great in a container or attractive low hedge. | 59.95 (18) 69.95 (16) |
