

VINES 2025 Blue - New 2025 Common Name	Latin name	Zone	Ht (cm/m)	Sp. (cm/m)	NS Native	Description	Bloom Time	Blue - New 2025-Supplier Price/(#Stock)
Hardy Kiwi Vine	Actinidia					Native to Eastern Asia, China & Japan - Edible fruit - Attracts pollinators		
Arctic Beauty (male) Variegated Kiwi Vine	Actinidia kolomikta 'Pasha' (Arctic Beauty)	5	3 - 6m	2 - 3m		Fast growing, twining woody vine with outstanding, colourfully ornamental foliage - green splashed with pink and creamy-white. Small white flowers in June. Being a male variety -- does not produce fruit. Tolerates some shade, but best leaf colour with some sun exposure. Average to moist, well-drained soil. May take a couple of years for maximum variegation.	June	32.95 (10)
Dumbarton Oaks (Female) Hardy Kiwi Vine	Actinidia arguta 'Dumbarton Oaks'	5	7.5 - 9m			Female kiwi. Shiny, ovate deep green leaves, fragrant white flowers. Small, edible fruit in Sept to Oct. Needs a male pollinator. Full sun to part shade. Moist, well-drained soil.	June	
Issai Hardy Kiwi Vine	Actinidia arguta 'Issai'	5	3.6 - 6m	1 - 1.5m		Self-pollinating. Actinidia arguta 'Issai' is a compact kiwi, bearing creamy-white blooms in May followed by small, sweet, smooth fruit in late summer to early autumn. Grow Actinidia arguta 'Issai' up a trellis or similar frame, in fertile, moist but well-drained, neutral to acidic soil in full sun.	June	32.95 (6)
Porcelain Vine	Ampelopsis					Attracts birds		
Elegans Variegated Porcelain Vine	Ampelopsis brevipedunculata 'Elegans'	5	3 - 6m			Native to NE Asia. Vigorous, woody vine, needs a support (or may be grown as groundcover without support). Clings by tendrils. Mostly, three-lobed green leaves are variegated with white. Pink stems. Young leaves have a pinkish tinge. Inconspicuous greenish flowers mid-summer produce eye-catching berries in fall. Clusters of fruit are light blue, ripening to bright, turquoise-blue, attractive to birds. Flowers on new growth. May be pruned back hard every 2-3 years to 30cm from ground. Full sun to partial shade. Average to moist, well-drained soil.	July	19.95 (11)
Dutchman's Pipe	Aristolochia					Deer Resistant		

VINES 2025 Blue - New 2025 Common Name	Latin name	Zone	Ht (cm/m)	Sp. (cm/m)	NS Native	Description	Bloom Time	Blue - New 2025-Supplier Price/(#Stock)
Dutchman's Pipe	Aristolochia durior (syn. A. macrophylla)	5	8-10m	6-10m		Native to Eastern US. Fast-growing vine, vigorous, twining habit, excellent for screening. Needs strong support. Huge, 20cm, glossy, deep-green, heart-shaped leaves. Produces inconspicuous, brown pipe-like flowers in late spring. Prune after flowering to maintain desired size. Full sun or partial shade. Moist, well-drained soil. Intolerant of dry soil.		29.95 (8)
Trumpet Vine	Campsis					Deer Resistant - Attracts hummingbirds		
Trumpet Creeper Vine	Campsis radicans					Orange, scarlet showy flowers. Foliage grows well in shade, but plants need good sun for best flowering. It blooms on new growth, so early spring pruning will not affect the flowering. Vines must be grown on sturdy structures because mature plants produce considerable weight		29.95 (2)
Yellow Trumpet Vine	Campsis radicans 'Flava'		10m	3m		A vigorous climber that produces beautiful, yellow, trumpet-shaped blooms. Provide support such as a trellis, fence or arbor to create an splendid, colorful accent to a patio, pathway or garden perimeter. Once established, thrives and blooms best with little care, other than annual pruning to control size. Deciduous.		29.95 (8)
Indian Summer Trumpet Creeper Vine	Campsis x tagliabuana 'Kudian' (Indian Summer)	5	3 - 5m	1 - 1.5m		Hybrid cross between Campsis radicans (American trumpet vine & Campsis grandiflora (Chinese trumpet vine. Vigorous (not as vigorous as species), self-clinging woody climber. Trumpet-shaped flowers are 7.6cm (3 inch) long, yellowish-orange flowers with a reddish-throat, mid to late summer. Flowers are followed by bean-like pods that split open when ripe, seeds are dispersed by wind. Very attractive to hummingbirds.	July - Aug	
Bittersweet Vine	Celastrus					Deer Resistant - Native to Central & Eastern NA - Drought tolerant - Attracts birds		
First Edition Autumn Revolution Bittersweet Vine	Celastrus scandens 'Bailumn'	3	7m			Plant is both male and female, which means you only need one to bear fruit (self-pollinating). Berry size is twice the size of the species. Berries ripen yellow, crack open to expose orange skin and showy, red seeds. Leaves turn yellow in fall. Berries attract birds. Good in floral arrangements. Twining, woody vine, needs sturdy support. Full sun, average to dry, well-drained soil. Drought tolerant.		

VINES 2025 Blue - New 2025 Common Name	Latin name	Zone	Ht (cm/m)	Sp. (cm/m)	NS Native	Description	Bloom Time	Blue - New 2025-Supplier Price/(#Stock)
Diana Bittersweet Vine	Celastrus scandens 'Diana'	3	10-15m	6-8m		Female, vigorous, deciduous vine, needs sturdy support. Insignificant yellow flowers in early summer produce round green berries, turning yellow when ripe. In fall, yellow berries split open to reveal orange-red seeds surrounded by yellow skin. Foliage turns yellow in fall. Prized for floral arrangements. Needs a male plant for fruit set. Full sun, average to dry, well-drained soil.		
English Ivy	Hedera helix					Evergreen Groundcover - Deer Resistant - Native to Europe - Partial to full shade		
Baltic English Ivy	Hedera helix var. baltica	5	20cm	6m		Hardy evergreen ivy, makes a good groundcover for dark, shady areas. Will also climb. Part shade to shade.		12.95 (26)
Glacier English Ivy	Hedera helix 'Glacier'	5	15cm			Variegated, gray-green with white edges, evergreen ivy foliage plant. Groundcover or climbing plant. Great in containers, too!		10.95 (2) 12.95 (2)
Gold Child English Ivy								12.95 (42)
Green & Gold English Ivy								18.95 (2)
Little Fantasy English Ivy	Hedera helix 'Little Fantasy'	5	75cm	1m		Evergreen, non-invasive, clumping plant with upright growth habit. Ht & Spr in 10yrs.		39.95 (13)
Needlepoint English Ivy	Hedera helix 'Needlepoint'	5	30cm	0.6 - 2m		Evergreen, green leaves, with delicate, thin, pointed tips. Creeping growth habit. Bronzy colour in winter.		
Thorndale English Ivy	Hedera helix 'Thorndale'	6	5 - 6m			Evergreen, large, lustrous, rich-green leaves with noticable creamy-white veins. Strong, vining habit. Self-clinging tendrils. Also will creep along the ground creating a thick groundcover. Partial to full sun. Evenly moist, well-drained soil.		12.95 (8)
Variegated English Ivy								12.95 (44)
Wilson's English Ivy	Hedera helix 'Wilson'	5	15-30cm	6 - 9m		Trailing hardy evergreen self-clinging vine, dark green leaves, makes good ground cover. Will climb.		

VINES 2025 Blue - New 2025 Common Name	Latin name	Zone	Ht (cm/m)	Sp. (cm/m)	NS Native	Description	Bloom Time	Blue - New 2025-Supplier Price/(#Stock)
Ornamental Hops	Humulus					Deer Resistant - Native to Europe, Asia, North America - Attracts pollinators		
Common Ornamental Hops	Humulus lupulus					Vigorous growth habit, needs support. Foliage dies down to ground every year, new shoots emerge in spring. Dried ripe female cones are used for preserving and flavoring beer. Full sun to partial shade, moist, well-drained soil.	Sept	
Magnum Ornamental Hops	Humulus lupulus 'Magnum'	4	4 - 5m	1.2 - 5m		Triploid hybrid, vigorous habit, larger fruit. Highly decorative vine with large, fragrant hops cones, good for making beer. Foliage dies down to the ground every year, new shoots emerge in spring. Full sun to partial shade. Moist, well-drained soil.	Sept	
Nugget Golden Ornamental Hops	Humulus lupulus 'Nugget'	4	6 - 8m	4 - 5m		Vigorous climbing vine, needs support. Greenish-yellow cone-like flowers in July. Foliage dies down to ground every year, new shoots emerge in spring. Dried ripe female cones are used for preserving and flavoring beer. Full sun to partial shade, moist, well-drained soil.	Sept	
Willamette Golden Ornamental Hops	Humulus lupulus 'Willamette'	4	6 - 7m	3m		Named for Oregon's hop-growing region of Willamette River. Fast-growing, hardy, disease-resistant. Produces masses of light, golden, fragrant cone-shaped flowers. Dried female cones are used for preserving and flavouring beer. Full sun to partial shade, moist, well-drained soil.	Sept	
Climbing Hydrangea Vine	Hydrangea / Decumaria / Schizophragma					Attracts pollinators		
Barbara Ann Climbing Hydrangea Vine	Decumaria barbara 'Barbara Ann'	6	3 - 6m	3 - 6m		Native to SE US. Self-clinging, deciduous, woody vine. Glossy, deep-green foliage, clusters of fragrant, white, fertile flowers in early to mid-summer. Full sun to dappled shade. Rich, evenly moist, well-drained soil.	June	59.95 (1)
Climbing Hydrangea Vine	Hydrangea anomala subsp. petiolaris	5	9 - 15m	1.5 - 1.8m		Native to Japan, Korea, Taiwan. Clings firmly to walls by aerial roots. Glossy green heart-shaped leaves. Fragrant, creamy-white lacecap flowers. Yellow fall colour. Exfoliating red bark is attractive in winter. Full sun to full shade. Rich, evenly moist, well-drained soil. Tolerates some drought once established.	June	29.95 (20) 39.95 (1) (10) (30) Ca

VINES 2025 Blue - New 2025 Common Name	Latin name	Zone	Ht (cm/m)	Sp. (cm/m)	NS Native	Description	Bloom Time	Blue - New 2025-Supplier Price/(#Stock)
Firefly Climbing Hydrangea Vine	Hydrangea anomala subsp. petiolaris 'Firefly'	5	3 - 10m	3 - 5m		This variety may be synonymous with 'Miranda'. Attracted, variegated green and yellow foliage. White "lacecap" type flowers in early summer. Self-clinging vine. Full sun to light shade. Rich, evenly moist, well-drained soil.	June	
Miranda Variegated Climbing Hydrangea Vine	Hydrangea anomala subsp. petiolaris 'Miranda'	5	9 - 15m	1.5 - 1.8m		Same as species, except has attractive green leaves with yellow margins.	June	39.95 (1)
Roseum Japanese Hydrangea Vine	Schizophragma hydrangeoides 'Roseum'	5	3 - 4.5m	2 - 3m		Native to Japan, Korea. Self-clinging by rootlets. Deep green heart-shaped leaves. Large, showy flat-topped pink lacecap hydrangea-like flower clusters. Yellow fall colour. Partial shade to light shade. Rich, evenly moist, well-drained soil. Slow to establish.	Aug	
Honeysuckle Vine	Lonicera					Attracts birds, hummingbirds, pollinators - Blooms on old wood, prune right after flowering		
Candy Swirl Honeysuckle	Lonicera 'Inov41' (Candy Swirl)	5	2.4m	2.1m		Variety from France. Dense, green foliage, unique, sweetly-scented, pink and orange flowers produces bluish fruits in fall. Requires trellised support, in container, on wall or fence, or serves as a groundcover. Full sun.	June - Aug	22.95 (8)
Celestial Honeysuckle								24.95 (8)
Coral Star Honeysuckle	Lonicera 'Celestial' PPAF	5b	3m	1.8m		Trumpet-shaped, apricot flowers with a tropical perfume. Twining habit and long bloom season. Healthy dark green foliage. Disease tolerant	Early summer	
Dropmore Scarlet Trumpet Honeysuckle	Lonicera x brownii 'Dropmore Scarlet'	4	3-5m	2-3m		Terminal clusters of tubular, bright scarlet flowers with an orange flare in early summer, and sporadic bloom later in summer. Inedible red berries in fall. Bluish-green foliage. Twining habit, requires support. Full sun to partial shade, rich, moist, well-drained soil.	June - Aug	29.95 (5)

VINES 2025 Blue - New 2025 Common Name	Latin name	Zone	Ht (cm/m)	Sp. (cm/m)	NS Native	Description	Bloom Time	Blue - New 2025-Supplier Price/(#Stock)
Goldflame Honeysuckle	Lonicera x heckrottii (Goldflame)	4	3-5m	2-3m		Cross <i>L. sempervirens</i> x <i>L. americana</i> . Twining, fast-growing vine. Fragrant, bi-color blossoms. Deep-pink buds open with yellow centers, reddish stems. Dark green leaves.	June - Aug	
Honeydew™ Honeysuckle	Lonicera japonica 'Hinlon'	4	3m+			Dark green leaves with creamy-yellow margins. Tubular flowers are white with lilac markings, that age to creamy-yellow. Produces red to orange berry-like fruit, attractive to birds. Full sun to partial shade. Rich, moist, well-drained soil.	June - July	
Virginia Creeper / Boston Ivy	Parthenocissus					Deer Resistant - Attracts Birds		
Veitchii Boston Ivy	Parthenocissus tricuspidata 'Veitchii'	5	9 - 12m			Species Native to China, Japan. Pointed leaves shaped somewhat like maple, reddish-green to green. Rapid growing stems will cling to smooth surfaces. Brilliant red fall color. Blue berries hidden by foliage, attract birds. Full sun to full shade.		24.95 (3) 39.95 (2) 44.95 (9)
Virginia Creeper	Parthenocissus quinquefolia	4	10 - 15m			Native to Eastern US. Compound, palmate leaves. Self-clinging, rapid climber. Brilliant red fall colour. Blue berries hidden by foliage attract birds in fall. Full sun to full shade.		24.95 (10) 29.95 (40)
Engelman's Virginia Creeper	Parthenocissus quinquefolia var. engelmannii	4	10 - 15m		Yes	Native to NS. Fast growing, very hardy, self clinging, bronze-red fall colour. Blue-black berries are hidden by foliage, but attract birds.		24.95 (5) 29.95 (10)
Silverlace Vine	Polygonum					Deer Resistant		
Silverlace Vine	Polygonum aubertii (syn. Fallopia baldschuanica)	5	6 - 9m			Native to W. China, Tibet. Fast growing, vigorous, deciduous, twining vine. New leaves emerge with reddish tinge, maturing to bright green. Masses of fleecy, white flowers, late summer to fall, splendid on fences or pergolas. Yellow fall colour. Prune heavily in spring. Full sun to partial shade. Moist, well-drained soil. Tolerates drought and heavy shade.	Aug - Sept	29.95 (12)
Frost Grape (Riverbank Grape)	Vitis riparia					Native to Eastern & Central NA		

VINES 2025 Blue - New 2025 Common Name	Latin name	Zone	Ht (cm/m)	Sp. (cm/m)	NS Native	Description	Bloom Time	Blue - New 2025-Supplier Price/(#Stock)
Frost Grape	Vitis riparia	4	22m			Fast growing, climbing or trailing vine. Species name <i>riparia</i> means "of the riverbank". In the grape family, large, heart-shaped, three lobed leaves with toothed margins are green with reddish petioles. Can climb up into trees. Tiny clusters of sweetly scented, yellow-greenish flowers give way to bluish-black fruits in late summer and fall, enjoyed by birds and small mammals. Full sun to partial shade.	June	
Wisteria								
Caroline (Royal Purple) Japanese Wisteria	Wisteria floribunda 'Caroline'	5	3-9m	3-6m		Among the darkest wisteria, stunning tresses of sweetly-scented pea-like violet flowers.		69.95 (1)
Lawrence Japanese Wisteria	Wisteria floribunda 'Lawrence'	5	8-10m			Lilac-blue pendulous, fragrant flowers, with exceptional hardiness and floriferousness. Blooms early summer. Vigorous growth habit, twining (clockwise) vine. Full sun, rich, average to moist, well-drained soil.		69.95 (18)
Shira-Noda Japanese Wisteria	Wisteria floribunda 'Shira-Noda'	5	8 - 10m	8 - 10m		Large, cascading clusters of fragrant, purple-lavender, sweet-pea-like flowers. Full sun, rich, average to moist, well-drained soil.		69.95 (2)
Blue Sapphire Chinese Wisteria	Wisteria sinensis 'Blue Sapphire'	4	10m	10m		Delicately fragrant with soft blue-violet flowers in early summer.		39.95 (2)
Aunt Dee Kentucky Wisteria	Wisteria macrostachya 'Aunt Dee'	4	10m	10m		One of the hardiest of all wisterias, this breathtaking vine features stunning chains of lilac purple flowers cascading from the stems in spring; vigorous almost to a fault, this twining vine can grow quite woody, needs ample support and full sun		39.95 (12)
Blue Moon Kentucky Wisteria	Wisteria macrostachya 'Blue Moon'	4	4.5-7.5m			Native to South-Central US. Showy, light-blue, 15-30cm, pendulous blooms. Flowers in June with 1-2 additional flushes of bloom later in summer. Vigorous stems twine counter-clockwise. Full sun, moist, well-drained soil.		49.95 (13)
