Striped Maple	Acer pensylvanicum	3	8m	6m	Yes	<b>NS Native species.</b> Foliage is dark green with brilliant golden yellow fall color. Smooth green bark with white vertical stripes. Found in damp woods. Best in partial shade, moist, well-drained soil. Dislikes exposure to hot summer sun.	<b>49.95 (6)</b> <b>59.95 (1)</b> <b>69.95 (15 Wi)</b>
<b>Norway Maple</b>	<b>Acer platanoides</b>					<b>Native to NE Europe to Caucasus</b>	
Crimson King Norway Maple	Acer platanoides 'Crimson King'	4	9 - 12m	6 - 12m		Species Native to NE Europe to Caucasus. Oval to rounded crown. Rich, purplish-crimson leaves all summer. Purple fruits. Dark maroon to bronze in fall before leaf drop. Fairly fast growing. RHS Award of Garden Merit.	<b>169.95 (15 Bak)</b>
Crimson Sentry Columnar Norway Maple	Acer platanoides 'Crimson Sentry'	4	9m	4m		Species Native to NE Europe to Caucasus. Narrow columnar form. Leaves are wine red in summer, turning red bronze in fall.	<b>159.95 (10)</b>
Deborah Norway Maple	Acer platanoides 'Deborah'	4	14m	12m		Species Native to NE Europe to Caucasus. Shows red tips all summer, really big leaves start red turning green	<b>119.95 (2)</b> <b>89.95 (11)</b> <b>129.95 (1)</b> <b>139.95 (1)</b> <b>149.95 (20)</b> <b>169.95 (5 Bak)</b>
Harlequin Variegated Norway Maple	Acer platanoides 'Drummondii' (Harlequin)	4	11m	8m		Species Native to NE Europe to Caucasus. Oval to rounded crown. Showy variegated maple leaves are light green with a creamy white margin. Slow growing. No appreciable fall colour.	
Princeton Gold Norway Maple	Acer platanoides 'Princeton Gold'	4	10 - 15m	4 - 5m		Species Native to NE Europe to Caucasus. Upright, oval habit. Strong branching. Foliage emerges a showy, bright, golden-yellow in spring, deepening to yellow-green in summer. Yellow fall colour.	<b>169.95 (10 Bak)</b>
Royal Red Norway Maple	Acer platanoides 'Royal Red'	4	11 - 13m	9 - 12m		Species Native to NE Europe to Caucasus. Oval to round habit. Maroon to purple leaves, colour lasts all summer. No significant fall colour. Excellent specimen tree. Full sun, average to moist conditions.	<b>99.95 (1)</b> <b>129.95 (30)</b> <b>199.95 (4)</b> <b>269.95 (4)</b>
<b>Sycamore Maple</b>	<b>Acer pseudoplatanus</b>					<b>Species Native to Central Europe &amp; Asia</b>	

TREES 2023 Blue - New 2023 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2023- Supplier Price/(#Stock)
Regal Petticoat® Sycamore Maple	Acer pseudoplatanus 'Tunpetti' (Regal Petticoat)	4	12m	9m		Species Native to Central Europe & Asia. Vase- shaped form. Emerging foliage burgundy tinged, olive green with bright, red leaf-stems, turns dark green with velvety-purple undersides. Yellow fall colour. Full sun, average to moist, well-drained soil.	159.95 (7) 249.95 (1)
Red Maple	Acer rubrum					NS Native Species	
Red Maple	Acer rubrum	3	16m	15m	Yes	NS Native species. Well adapted to many soil types. Faster growing than Norway or sugar maples, but slower growing than silver maples. Full sun to partial shade. Will grow in average, moist to wet soil. Red flowers, red fruit (samaras). Excellent orange to red fall colour.	39.95 (3) 49.95 (18) 59.95 (1) 69.95 (25) 79.95 (2) 119.95 (6) 249.95 (12)
Armstrong Red Maple	Acer rubrum 'Armstrong'	4	15m	4 - 5m	Yes	Cultivar of NS Native. Rapid, narrow, upright growth, Light grey bark. Fall colour not as brilliant as true rubrum.	159.95 (17)
Autumn Flame® Red Maple	Acer rubrum 'Autumn Flame'	4	12 - 15m	10 - 15m	Yes	Cultivar of NS Native. Dense, uniform, round crown. Smaller leaves than other cultivars. Greenish-yellow maple flowers. Orange-scarlet fall colour tends to begin earlier than most other A. rubrum cultivars.	229.95 (2)
Red Sunset Maple	Acer rubrum 'Franksred' (Red Sunset)	4	18m	12m	Yes	Cultivar of NS Native. Very hardy, excellent for street or lawn, retains fall colour for a long time. Full sun to partial shade. Average, moist to wet soil.	139.95 (1)
Scarlet Sentinel Columnar Red Maple	Acer rubrum 'Scarsen' (Scarlet Sentinel)	4	14 - 15m	7 - 8m	Yes	Cultivar of NS Native. Upright, columnar growth habit. Crown begins narrow and broadens over time. Sparse red flowers appear before red leaves emerge. Leaves then turn dark green in summer and then yellow-orange and red-orange in the fall. Great shade tree. Fast grower. Full sun to part shade. Moist, average, well-drained soil.	149.95 (48)

Sugar Maple	Acer saccharum	3	15 - 20 m	12 - 15 m	Yes	NS Native species. Slow growing, Yellow to orange red foliage in fall. Maple syrup is produced from the sap	
Silver Maple	Acer saccharinum					Native to NB	
						Native to NB. Very fast growing tree. Green on top of leaf, with silvery underside. Smooth grey bark becomes flaky with age. Full sun to partial shade. Adaptable to various soil conditions. Average, moist, to wet soil. Subject to weak or brittle branches when mature. Yellow fall colour.	99.95 (13) 129.95 (9)
Silver Maple	Acer saccharinum	3	18m	15m			
Silver Cloud Silver Maple	Acer saccharinum 'Silver Cloud'	3	20m	9m		Cultivar of Species Native to NB. Strong, central leader and shapely upright, oval form. Attractive green maple leaves with bright, silvery undersides throughout the season. Good resistance to pests and diseases. Very hardy. Foliage turns yellow in fall.	99.95 (5)
Tartarian Maple	Acer tartaricum - See Acer ginnala						
Three-flower Maple	Acer triflorum					Native to China & Korea	
						Species Native to China & Korea. Yellow to claret-red foliage in fall. Bark is a grey and honey colored and peels in tight vertical curls	59.95 (17)
Three-flower Maple	Acer triflorum	5	8m	7m			
Horse Chestnut / Buckeye	Aesculus						

TREES 2023 Blue - New 2023 Common Name		Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2023- Supplier Price/(#Stock)
Autumn Splendor Horse Chestnut (Buckeye)	Aesculus x arnoldiana 'Autumn Splendor'	5	11m	8-10m		Medium-sized, somewhat rounded form. Glossy, emerald-green palmate leaves are resistant to summer leaf scorch. Short spikes of yellowish-green flowers in mid-spring. Brilliant, maroon-red fall colour. Non-edible fruit nuts. Hybrid cross between A. glabra x (A. flava x A. pavia).	199.95 (2)
Yellow Buckeye	Aesculus flava	5	15 - 22m	10 - 15m		Native to North America. Medium to large tree with an oblong rounded crown. Palmate compound green leaves. Yellow flowers in erect, 15cm panicles, mid-spring produce typical, globular fruit capsules. Fall colour yellow-orange. Full sun to partial shade. Average to medium moist, well-drained soil.	99.95 (2) 199.95 (4)
Red Buckeye	Aesculus pavia	5	4 - 5m	4 - 5m		Native to SE US. Clump-forming shrub or small tree. Shiny, palmate, dark-green leaves are attractive in spring & summer. Showy, upright clusters of bright-red, spring flowers are also attractive to hummingbirds. Flowers produce fruit (light-brown seed capsules called buckeyes), seeds ripen in fall, are toxic, avoided by most wildlife. Full sun to partial shade, moist, well-drained soil.	59.95 (12)
Ruby Red Horse Chestnut	Aesculus x carnea 'Briotii' (Ruby Red)	5	10m	12m		Native to Balkans. Oval to rounded shape. Large, showy, ruby-red, 20-25cm (8-10") upright terminal flower panicles, mid-spring. Large-lobed leaves provide dense shade. Flowers are followed by slightly prickly, husky capsules containing two or three nuts.	79.95 (3) no leader-cut 89.95 (8)
Serviceberry	Amelanchier					Attracts pollinators, birds - Grows in moist to wet sites	
Saskatoon Berry - See Fruit Tree List 2023	Amelanchier alnifolia - See Fruit Tree List 2023						
Downy Serviceberry (Single stem-tree form)	Amelanchier canadensis	3	6m	3m	Yes	NS Native species. Small tree with masses of white flowers in spring before foliage followed by edible, blue-purple berries that attract birds.	69.95 (15) 119.95 (5)
Downy Serviceberry (Clump form)	Amelanchier canadensis	3	6m	3m	Yes	NS Native species. Clump form. White flowers in spring before leaves, blue-purple fruit in summer. Green leaves change to orange to red in fall	59.95 (56)

TREES 2023 Blue - New 2023 Common Name		Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2023- Supplier Price/(#Stock)
Autumn Brilliance Apple Serviceberry	Amelanchier x grandiflora 'Autumn Brilliance'	3	5 - 8m	4 - 5m	Yes	Single-stemmed tree form. Cultivar of NS Native species. X grandiflora = hybrid cross between (A. arborea x A. laevis) Well-formed, oval-shaped crown with slightly ascending branches. Masses of pink buds open to large white flowers before leaves emerge in spring. Sweet, juicy, edible blue-black fruit in summer, also attract birds. Brilliant orange-red fall colour.	39.95 (29) (30 Si) 59.95 (15 Si)
Ballerina Apple Serviceberry	Amelanchier x grandiflora 'Ballerina'	4	5m	4m	Yes	Upright spreading habit. White flowers and edible fruit. Orange and red fall colour.	59.95 (15) 129.95 (5)
Princess Diana Apple Serviceberry	Amelanchier x grandiflora 'Princess Diana'	4	6m	5m	Yes	Cultivar of NS Native species. X grandiflora = hybrid cross between (A. arborea x A. laevis) Small tree or large shrub. White flowers followed by edible fruit. Brilliant red fall colour that starts early and lasts late into season.	169.95 (2)
Snowflakes Smooth (Allegheny) Serviceberry (Single stem)	Amelanchier laevis 'Snowflakes'	4	4 - 6m		Yes	Cultivar of NS Native species. Small tree with an oval crown. Large, bright, white flowers in spring, contrast with new bronzy foliage that matures to green. Brownish-red, edible fruits in late summer to early fall. Fall colour yellow and red. Fruit is edible, also very attractive to birds.	129.95 (3)
<b>Birch</b>	<b>Betula</b>						
Crimson Frost Birch	Betula 'Crimson Frost'	4	12m	25m		Loose, open, oval form with slightly pendulous branchlets. Amazing birch hybrid with deep purple leaves and the famous white peeling bark. Great accent piece in any garden. Pointy foliage opens burgundy in the spring, matures to purple, and then burgundy in the fall. Full sun to part shade.	99.95 (10)
Yellow Birch (Swamp Birch)	Betula alleghaniensis	2	25m	5 m +	Yes	NS Native species. Bark reddish brown when young. Pale yellow to silvery grey or brown	49.95 (61) 59.95 (9) 79.95 (3) 119.95 (2)

TREES 2023 Blue - New 2023							Red - Three or Less in stock
Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Blue - New 2023- Supplier Price/(#Stock)
Yellow Birch (multi-stemmed clump form)	Betula alleghaniensis (multi-stemmed)	2	25m	5 m +	Yes	<b>NS Native species.</b> Clump form. Bark reddish brown when young. Pale yellow to silvery grey or brown	89.95 (3)
Cinnamon Curls® Dwarf Korean Birch	Betula costata 'CinnDak' (Cinnamon Curls)	4	2.7m	2.7m		Dwarf, compact form. Exfoliating at a young age, cinnamon-brown outer bark curls in long strips exposing white inner bark. Glossy, deep-green foliage throughout the summer, changes to beautiful golden-yellow in fall. Originated as a hardy seedling in North Dakota State Univ. Good resistance to pests. Full sun, well-drained soil.	139.95 (10 Sp)
River Birch	Betula nigra	4	12 - 21m	12 - 18m		Native to Eastern US. Pyramidal when young, matures to more rounded form. Attractive salmon-pink to reddish brown exfoliating bark. Leathery, diamond-shaped dark green toothed leaves turn yellow in fall. Vigorous, fast growing. Prefers moist to wet, acidic soil but also adaptable to drier locations. Full sun to partial shade. Very resistant to bronze birch borer.	49.95 (4) 99.95 (2)
Fox Valley® Dwarf River Birch	Betula nigra 'Little King' (Fox Valley)	4	2 - 3m	2 - 4m		Dwarf. Single-stemmed, dense, rounded shape, compact growth with irregular crown. Leathery, diamond-shaped leaves are dark green in summer, bright yellow in the fall. Showy, orange to brown-colored exfoliating bark reveals lighter, inner colour. Makes an excellent specimen tree where space is limited. Full sun to partial shade. Moist to wet, acidic soil but adapts to drier locations. Very resistant to bronze birch borer.	59.95 (4)
Heritage® River Birch (single-stemmed)	Betula nigra 'Cully' (Heritage)	4	12 - 21m	12 - 18m		Single stem form. Medium sized, fast-growing tree with leathery, dark green foliage throughout the season, turning outstanding yellow in the fall. Ornamental salmon-cream to brown bark, exfoliates to reveal lighter, inner cream-white colour. Full sun to partial shade. Moist to wet, acidic soil but adapts to drier locations. Very resistant to bronze birch borer and good resistance to leaf spot diseases.	29.95 (106)

TREES 2023 Blue - New 2023 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2023- Supplier Price/(#Stock)
Heritage® River Birch (multi-stemmed clump form)	Betula nigra 'Cully' (Heritage)	4	12 - 21m	12 - 18m		Clump form. Medium sized, fast-growing tree with leathery, dark green foliage throughout the season, turning outstanding yellow in the fall. Ornamental salmon-cream to brown bark, exfoliates to reveal lighter, inner cream-white colour. Full sun to partial shade. Moist to wet, acidic soil but adapts to drier locations. Very resistant to bronze birch borer and good resistance to leaf spot diseases.	69.95 (30) 169.95 (7)
Canoe or Paper Birch (single-stemmed)	Betula papyrifera	3	15 - 20m	7 - 15m	Yes	<b>NS Native species.</b> Pyramidal to oval shape. Green leaves with toothed margins turns yellow in fall. Best known for showy, white bark with black markings. Bark peels with age. Prefers acidic, moist, well-drained soil. Full sun to partial shade.	49.95 (10) 59.95 (1) 79.95 (15 Wi)
Whitebarked Himalayan Birch (multi-stemmed clump form)	Betula utilis var. jacquemontii	5	8m	5m		Native to Western Himalayas. Brightest white bark of any birch. Dark green foliage turns yellow in fall. Showy catkins in spring. Full sun, with consistently moist, well-drained soil.	99.95 (4)
Dakota Pinnacle® Japanese White Birch	Betula platyphylla 'Fargo' (Dakota Pinnacle)	5	9 - 12m	3 - 4m		Species Native to Japan. Narrow, upright, columnar form. Medium to fast growing, hardier than species. Dense, dark-green foliage with contrasting smooth, white bark that exhibits slight exfoliation when mature. Golden-yellow fall colour. Ideal accent tree or summer privacy screen. Prefers full sun to partial shade, consistently moist, well-drained soil. Heat & drought tolerant. Resistant to bronze birch borer, strong winds. Mulch to protect root zone.	49.95 (31)
Parkland Pillar® Japanese White Birch	Betula platyphylla 'Jefpark' (Parkland Pillar)	5	6 - 10m	3 - 4m		Species Native to Japan. Narrow, upright, columnar form. Dense, dark-green foliage with contrasting white bark. Yellow fall colour. Ideal accent tree or summer privacy screen. Prefers full sun to partial shade, moist, well-drained soil. Heat & drought tolerant. Resistant to bronze birch borer, strong winds. Mulch to protect root zone.	79.95 (20) 109.95 (9)
Whitespire Grey Birch	Betula populifolia 'Whitespire'	4	6 - 12m	3 - 6m	Yes	<b>Cultivar of NS Native.</b> Narrow, columnar, suckering habit. Attractive, non-peeling, chalky-white bark. Shiny, triangular-shaped, double-toothed green leaves, no appreciable fall colour. Good for naturalized areas, has shallow root system. Full sun to partial shade, moist, well-drained soil. Will adapt to wet or dry soils. Some resistance to bronze birch borer.	79.95 (2)

TREES 2023 Blue - New 2023 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2023- Supplier Price/(#Stock)
<b>Hornbeam / Blue Beech</b>	<b>Carpinus</b>						
Dwarf Columnar European Hornbeam	Carpinus betulus 'Columnaris Nana'	5	2 - 2.4m	0.6 - 1.2m		Species Native to Europe. Dwarf, slow-growing, columnar habit. Dense green foliage turns golden-yellow in fall. Spring catkins mature into hop-like fruit. Full sun to partial shade. Prefers moist, well-drained soil but is adaptable to heat & drought.	229.95 (2)
Upright European Hornbeam	Carpinus betulus 'Fastigiata'	4	10m	6m		Medium sized tree with a pyramidal to oval-rounded crown. Clean, attractive sharply toothed dark green leaves. Trunks have smooth gray bark and muscle-like fluting.	229.95 (6)
<b>Hickory</b>	<b>Carya</b>					<b>Native to Eastern NA. Attracts wildlife</b>	
Bitternut (Swamp) Hickory	Carya cordiformus	4	21m	10m		Ascending branches, lower branches are pendulous. Member of the walnut family. Large, compound green leaves with seven leaflets. Mid-spring male catkins & female flowers on same tree, produce inedible, bitter fruit nuts (husks split open when ripe). Distinctive, sulphur-yellow buds from mid-summer to next spring. Light-grey, "muscled" bark. Fall colour sometimes yellow. Prefers full sun (tolerates light shade when young), moist to wet soil.	59.95 (4)
<b>Northern Catalpa</b>	<b>Catalpa</b>					<b>Native to East Central USA (Tennessee to Indiana) - Consistently moist, well-drained soil</b>	
Northern Catalpa	Catalpa speciosa	5	12 - 21m	6 - 15m		Very tall, irregular rounded, rather coarse form in winter. Very large, light-green to yellow green, heart-shaped leaves. Large, showy, bell-shaped, orchid-like, white blooms with purple & yellow interior spotting, in late spring, produce long, slender, green seed pods, turning brown in fall. Yellow fall colour. Full sun to partial shade. Consistently moist, well-drained soil.	59.95 (1) 69.95 (7) 89.95 (8) 69.95 (10 Wi)

TREES 2023 Blue - New 2023							Red - Three or Less in stock Blue - New 2023- Supplier Price/(#Stock)
Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	
Lemon Lime Northern Catalpa	Catalpa speciosa 'Lemon Lime'	5	6m	6m		Broadly oval form. Light green leaves that turn a beautiful yellowish colour. Orchid like white and yellow flowers. Can tolerate a wide range of soil conditions but prefers consistently moist, well-drained soil.	149.95 (3) 79.95 (10 Wi)
Japanese Katsura	Cercidiphyllum					Consistently moist, well-drained soil - Native to China, Japan	
Japanese Katsura Tree	Cercidiphyllum japonicum	5	18m	15m		Dense, pyramidal when young, more rounded when mature. Heart shaped leaves emerge reddish-purple in spring, changing to blue-green in summer. Beautiful golden-yellow with tinges of orange and red fall colour. Fallen foliage fragrant like cotton candy. Requires consistently-moist, well-drained soil, full sun to partial shade.	79.95 (14) 89.95 (10)
Weeping Japanese Katsura	Cercidiphyllum japonicum 'Pendulum'	5	6m	3m		Species Native to Japan. Weeping form. Irregular, cascading branches that sweep to the ground, with blue-green, heart-shaped leaves. Foliage turns showy butter-yellow in fall and emits a sweet, candyfloss scent. Requires consistently moist, well-drained soil. Excellent specimen tree. Full sun.	249.95 (3 Sp)
Red Fox Japanese Katsura Tree	Cercidiphyllum japonicum 'Rotfuchs' (Red Fox)	5	12m	7.6m		Medium-sized tree with narrow, upright habit. In spring, leaves emerge deep purple, fading to blue-green later in season. Fall colour beautiful golden-yellow, with tinges of orange and red. Full sun to partial shade. Consistently moist, well-drained soil.	59.95 (1) 69.95 (2)
Eastern Redbud	Cercis canadensis					Deer Resistant - Native to Central & Eastern NA - Site Protected from Winter NW Winds - Does not like to be moved once planted	
Eastern Redbud	Cercis canadensis	5	6 - 9m	7 - 10m		Multi-trunked, understory tree with rounded crown. Stunning, pea-shaped, rose-purple flowers in May, before leaves. Pointed, heart-shaped, green to blue-green leaves turn soft-yellow in fall. Full sun to partial shade. Consistently moist, fertile, well-drained soil. Does not tolerate boggy conditions. Good in naturalized settings.	39.95 (12)

TREES 2023 Blue - New 2023							Red - Three or Less in stock Blue - New 2023- Supplier Price/(#Stock)
Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	
Forest Pansy Eastern Redbud	Cercis canadensis 'Forest Pansy'	6b	6 - 9m	7 - 10m		Understory tree with rounded crown. Beautiful, rose-purple, pea-shaped flowers on bare branches. Large, pointed, heart-shaped, leaves emerge reddish-purple, maturing to maroon. Fall is colour variable, often reddish-purple and orange. Needs consistently moist, fertile, well-drained soil. Does not tolerate boggy conditions. Good in naturalized settings.	99.95 (15 L)
Little Woody Dwarf Eastern Redbud	Cercis canadensis 'Little Woody'	6	3 - 4m	2.5 - 3m		Dwarf, vase-shaped cultivar. Clusters of tiny, purple, pea-like flowers in spring before leaves. Small, thick, lightly-crinkled, heart-shaped, blue-green leaves turn yellow in fall. Prefers full sun to partial shade, in moist, fertile, well-drained soil.	139.95 (1)
<b>Fringe Tree</b>	<b>Chionanthus</b>					<b>Attracts pollinators, wildlife</b>	
White Fringe Tree	Chionanthus virginicus	4	4 - 6m	4 - 6m		Native to Eastern US. Shrubby, small tree in the olive family, with spreading, open, rounded habit. Airy panicles of lightly-fragrant, fringe-like, creamy-white flowers in June. Dioecious, separate male & female plants. Male flowers are showier than female. Female flowers give way to clusters of olive-like, bluish-black fruit in fall that provide food for birds and wildlife. Attractive, wide, 20cm (8") long, green leaves turn yellow in fall. Prefers full sun to partial shade. Moist, fertile, well-drained soil.	69.95 (6) 99.95 (15 Wi) 149.95 (2) 199.95 (1)
<b>Yellowwood</b>	<b>Cladrastis</b>					<b>Native to South-Eastern US</b>	
American Yellowwood	Cladrastis kentukea (lutea)	5	9 - 15m	12 - 16m		Medium-sized tree in the pea family, with upright branching, broad, rounded crown. Intensely fragrant, wisteria-like, 25-38cm (10-15") long white flowers cover the tree in late spring. Note: tree can be slow to flower. Lacy, pinnately compound leaves open yellow-green, maturing to bright green in summer, turning yellow in fall. Flat seed pods, up to 10cm (4") long, ripen in fall. Full sun. Moist, well-drained soil. Good as shade tree, near patios, lawns.	49.95 (2) 199.95 (1)
<b>Pagoda Dogwood / Wedding Cake Tree</b>	<b>Cornus alternifolia</b>					<b>NS Native species - Deer Resistant - Attracts pollinators, birds</b>	

TREES 2023 Blue - New 2023							Red - Three or Less in stock Blue - New 2023- Supplier Price/(#Stock)
Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	
Chinese / Kousa Flowering Dogwood	Cornus kousa					Native to Asia - Full sun to partial shade - Rich, moist well-drained soil - Fruit attracts birds	
Kousa Dogwood	Cornus kousa	5	5 - 9m	5 - 9m		Native to Japan, Korea, China, Taiwan. Vase- shaped habit when young, maturing to rounded, spreading form. White, pointed flower bracts in June produce showy, red, raspberry-like fruit late summer. Attractive, reddish-purple to scarlet fall colour. Mottled, exfoliating tan & grey bark adds winter interest. Full sun to partial shade. Rich, consistently moist, well-drained soil.	169.95 (5 Cn) 179.95 (7) 199.95 (1)
Aurora Hybrid Dogwood	Cornus x 'Rutban' (Aurora)	6	4 - 6m	4 - 6m		Rutger hybrid (C. kousa x C. florida). Dense, upright to spreading habit. Vigorous grower. Heavy blooming, masses of rounded, overlapping, white to creamy-white, flower bracts in June. Foliage is almost invisible when the tree is in bloom. Sterile, does not produce fruit. Good resistance to disease. Attractive purple fall colour.	169.95 (1) 189.95 (1) 199.95 (3)
Autumn Rose Kousa Dogwood	Cornus kousa 'Autumn Rose'	6	5 - 7m	5 - 6m		Creamy white, pointed floral bracts in June. Lighter green leaves with a distinctive white wash, turn shades of pink in fall, hence the name. Red fruit in fall is attractive to birds. Disease resistant.	249.95 (1)
Celestial® (aka. Galaxy) Hybrid Dogwood	Cornus x 'Rutdan' (Celestial)	6	4.2 - 5.4m	3.6 - 4.5m		Rutger hybrid (C. florida x C. kousa) Large, rounded, overlapping, creamy-white flower bracts open in June with a hint of green. Known for vigorous habit, large-bracted flowers, profusion of bloom. Good disease resistance. Sterile, does not produce fruit. Dark green leaves turn to shades of red and purple in fall. Prefers rich, moist, well-drained soil. Sun to light shade. (Note: name was changed from Galaxy to Celestial)	149.95 (2) 189.95 (5 Cn) 199.95 (2)
Celestial Shadow Variegated Dogwood	Cornus x 'Celestial Shadow'	5	4 - 5m	4 - 5m		Variegated mutation of Cornus x 'Rutdan' (Celestial). Glossy green and yellow leaves with a pinkish-red tone in summer. White overlapping flower bracts mature to pink in June. Sterile, does not produce fruit. Orange and red fall colour. Slow growing, can be slow to flower. Partial shade, with morning sun and afternoon shade. Rich, moist, well-drained soil.	199.95 (1)

TREES 2023 Blue - New 2023							Red - Three or Less in stock Blue - New 2023- Supplier Price/(#Stock)
Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	
China Girl Chinese Dogwood	Cornus kousa 'China Girl'	5	6m	5m		Masses of large white flower bracts in June produce red, raspberry-like fruit late summer. Green, slightly curled leaves turn red in fall. Full sun to partial shade. Rich, moist, well-drained soil.	199.95 (5) 179.95 (1)
Constellation® Hybrid Dogwood	Cornus x 'Rutcan' (Constellation)	6	4.5 - 6.5m	3.5 - 5m		Rutger hybrid (C. florida x C. kousa) White flower bracts in June. Vigorous, fully branched small tree from bottom to top. Noted for profuse bloom and good disease resistance. Sterile, does not produce fruit. Attractive red to purple fall colour. Prefers rich, moist, well-drained soil. Full sun to partial shade.	149.95 (2) 199.95 (8)
Galaxy Kousa Dogwood - See Celestial							
Greensleeves Kousa Dogwood	Cornus kousa 'Greensleeves'	5	4.5 - 7.6m	3 - 6m		Layered form. Greenish-cream, pointed flower bracts in June followed by heavy abundance of very large red, raspberry-shaped fruit in fall. Deep green, waxy foliage turns shades of red and purple in fall. Prefers rich, moist, well-drained soil. Sun to partial shade.	149.95 (3) 189.95 (1) 249.95 (3)
Mandarin Jewel Chinese Dogwood	Cornus kousa 'MADI-11' (Mandarin Jewel)	5	5m	4m		Vigorous Chinese dogwood with white, showy flower bracts. Fruit forms in late summer and is unlike other dogwoods. It is orange yellow and very striking. Leaves may turn yellow - orange in fall.	149.95 (5)
Rosy Teacups Hybrid Dogwood	Cornus kousa x 'Rosy Teacups'	6	4.5 - 6.0m	6.0 - 7.6m		Upright, dense growth habit. Branched low to the ground and forms a rounded head slightly wider than tall. Breathtaking deep rose pink, overlapping flower bracts with red toned edges emerge in late May-early June. Disease resistant. Drought tolerant. Long lasting bloom of 3 or more weeks. Bright burgundy foliage in the fall. Full sun.	259.95 (5)
Ruth Ellen® Hybrid Dogwood	Cornus x 'Rutlan' (Ruth Ellen)	6	4 - 6m	6 - 8m		Rutger hybrid. Blooms later than most. Dense, low-branching, spreading habit. Large, brilliant-white flower bracts. Vigorous and hardy. Sterile, does not produce fruit. Good disease resistance. Full sun to partial shade, moist, well-drained soil.	199.95 (3)

<b>TREES 2023</b> <b>Blue - New 2023</b> <b>Common Name</b>	<b>Latin name</b>	<b>Zone</b>	<b>Height (m)</b>	<b>Spread (m)</b>	<b>NS Native</b>	<b>Description</b>	<b>Red - Three or Less in stock</b> <b>Blue - New 2023- Supplier</b> <b>Price/(#Stock)</b>
Samaritan® Variegated Kousa Dogwood	Cornus kousa 'Samzam' (Samaritan)	5	6m	6m		Large, creamy white, pointed flower bracts in June, with showy, variegated green leaves with creamy- white margins, turns reddish with pink in fall. Abundant, raspberry-like, red fruit in fall is attractive to birds. Disease resistant.	<b>149.95 (6)</b> <b>189.95 (10 Cn)</b> <b>219.95 (3)</b>
Satomi Kousa Dogwood	Cornus kousa 'Satomi'	5	4 - 5m	4 - 5m		Upright, spreading habit. Colour may vary on June flower bracts, from light pink to deep pink. Raspberry- like fruits in fall are enjoyed by birds. Deep green foliage turns shades of red in fall.	<b>199.95 (1)</b> <b>269.95 (5 Ca)</b> <b>279.95 (3 Sp)</b>
Scarlet Fire® Kousa Dogwood	Cornus kousa 'Rutpink' (Scarlet Fire)	6	6 - 8m	5 - 6m		Rutger Univ hybrid with unique, showy, dark pink to fuchsia, pointed flower bracts (10-12 cm diameter), most of June. New foliage emerges with purple tinges in spring maturing to green. Red raspberry- like fruit late summer. Foliage turns red in fall. Full sun to partial shade, moist, acidic well-drained soil. This variety is more disease resistant, heat & drought tolerant than other dogwoods.	<b>169.95 (6 L)</b> <b>279.95 (3 Sp)</b>
Snow Tower Kousa Dogwood	Cornus kousa 'Snow Tower'	5	3 - 5m	1.2 - 2.4m		Upright, columnar variety, with narrow spread. Abundant, large, white flower bracts in June, appear slightly later than most other kousa varieties. Flowers give way to red fruits in autumn. Foliage also turns attractive red shades in fall.	<b>169.95 (6 L)</b>
Starlight Hybrid Dogwood	Cornus x 'KN4-43' (Starlight)	6	10m	7m		Rutger hybrid (C. kousa x C. nutallii). Very large white flower bracts, that don't cup in the heat. Blooms with leaves on tree. Excellent fall colour.	<b>249.95 (3)</b>
Stellar Pink® Hybrid Dogwood	Cornus x 'Rutgan' (Stellar Pink)	6	7m	5.4m		Rutger hybrid (C. kousa x C. florida) Large, soft-pink flower bracts, blooms profusely. Sterile, does not produce fruit. Vigorous growth habit. Good disease resistance. Red to purple fall colour.	<b>219.95 (3)</b> <b>279.95 (3 Ca)</b>
Summer Fun Variegated Kousa Dogwood	Cornus kousa 'Summer Fun'	5	6m	5m		Variegated foliage emerges with pink highlights. Matures to grey-green with very, bright-white, slightly wavy margins. Pointed, white flower bracts in June, followed by red fruit. Vivid fall tones are red, orange and pink.	<b>149.95 (1)</b> <b>219.95 (1)</b> <b>259.95 (1)</b> <b>269.95 (3)</b>

Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	
Barabit's Nana Maidenhair Tree	Ginkgo biloba 'Barabits Nana'	4	1.5 - 1.8m	1 - 1.2m		Dwarf, very compact, shrub-like habit. Leaves are slightly larger than the species. Foliage turns bright yellow in the fall.	49.95 (2) 119.95 (3)
California Sunset Variegated Maidenhair Tree	Ginkgo biloba 'California Sunset'	4	3 - 4m	2 - 3m		Small, upright form, slow growing. Long, deeply incised, fan-shaped leaves emerge creamy-yellow, maturing to dark green with clear, golden stripes.	49.95 (1)
Chase Manhattan Maidenhair Tree	Ginkgo biloba 'Chase Manhattan' (syn. G. 'Bonn's Dwarf')	4	1m	1m		Slow growing. dwarf conical tree with small, green, often cupped, fan-shaped leaves. Originated as a witch's broom. Yellow fall color. Excellent for bonsai or in a rock garden. Ht & spr in 10 yrs.	49.95 (1) 119.95 (3)
Chi-chi Dwarf Maidenhair Tree	Ginkgo biloba 'Chi-chi' (syn 'Tschì-Tschì')	4	1.2m	1m		Dwarf, upright, dense, mounded form. Male selection. Originated as a witch's broom in Japan before 1978. Develops large, bulbous knots on the trunks. Very large, fan-shaped green leaves may sprout from the knots as well. Uniform yellow colour in fall. Ht in 10 yrs.	69.95 (3)
Mariken Dwarf Maidenhair Tree	Ginkgo biloba 'Mariken'	4	0.6m	0.6m		Dwarf, low, spreading, somewhat weeping, male form. Discovered as a witch's broom. Small, green fan-shaped leaves turn yellow in fall. Discovered and cultivated from a witch's broom growing on a species tree. Ht & spr in 10 yrs.	99.95 (1)
Robbie's Twist Maidenhair Tree	Ginkgo biloba 'Robbie's Twist'	4	2.4m	1.2m		Male tree with unique, contorted, irregularly branched upward growing form. More narrow, fan shaped foliage, often notched. New growth is covered with brown indumentum. Yellow fall colour. Ht & spr in 10 years.	49.95 (1) 119.92 (2)
Saratoga Maidenhair Tree	Ginkgo biloba 'Saratoga'	4	3m	1.5m		Male tree with upright habit, dense, rounded crown. Densely clothed in narrow and deeply incised green fan-shaped leaves. Good golden fall color. Ht & Spr in 10 yrs	59.95 (1) 119.95 (3)
Sky Tower™ Maidenhair Tree	Ginkgo biloba 'JN9' (Sky Tower)	4	5 - 6m	2 - 3m		Male. Very compact, dense, slender, upright form. Slow growing. Rich, green, fan-shaped leaves turn yellow in fall.	99.95 (2)
Thelma Dwarf Maidenhair Tree	Ginkgo biloba 'Thelma'	4	1.5m	1m		Dwarf, male, bushy habit. Green fan-shaped leaves are often deeply dissected or rolled from margin to margin and turn golden yellow in fall. Ht & Spr in 10 yrs.	79.95 (1)

TREES 2023 Blue - New 2023 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2023- Supplier Price/(#Stock)
Weeping Wonder (syn. Mutant Weeper) Dwarf Maidenhair Tree	Ginkgo biloba 'Weeping Wonder' (Syn. G. 'Mutant Weeper')	4	1.2 - 1.5m	0.6 - 0.8m		Dwarf, female, narrow, upright tree with pendulous branching. May need to be staked. Leaves are more deeply cut than most, varying in size & thickness. Some leaves may display lime-green variegation. Lovely yellow fall colour. Will develop fruit if there is a male tree is nearby for pollination to occur. Ht & Spr in 10 yrs	49.95 (2)
Windover Gold Maidenhair Tree	Ginkgo biloba 'Windover Gold'	4	2m			Broadly oval shape, male cultivar. Leaves slightly larger than species. Slow growing. Ht in 10 yrs. Grows 8-15cm per year. Golden yellow fall colour.	159.95 (2)
Honey Locust	Gleditsia					Native to Central & Eastern NA - Deer Resistant	
Thornless Honey Locust	Gleditsia triacanthos var. inermis	4	13m	13m		Upright, open, rounded habit, thornless, with horizontal branching. Lacy, compound green leaves, gives light shade, somewhat tropical appearance. Full sun, moist, well-drained soil.	49.95 (3) 59.95 (15 Wi)
Kentucky Coffee Tree	Gymnocladus					Tolerates drought	
Kentucky Coffee Tree	Gymnocladus dioicus	4	17m	13m		Native to Central & Eastern US, ON and QC. Tall tree with an irregular, open crown, rough, scaly bark. Large, attractive, 1m long, compound, blue-green leaves, cast a nice, light shade, and turn yellow in fall. Dioecious, separate male & female trees, each flower May to June. Male tree flowers are in clusters, 10cm long, while female tree flowers are fragrant panicles to 30cm long. Fertilized female trees produce flattened, reddish-brown pods containing seeds that ripen in October. Attractive pods persist well into winter. Native americans roasted/ground seeds to make coffee-like beverage, hence the name. Prefers full sun. Rich, moist, well-drained soil.	(not great ) 59.95 (3) 79.95 (22)
Seven-Son Flower	Heptacodium					Attracts pollinators	

TREES 2023 Blue - New 2023 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2023- Supplier Price/(#Stock)
Seven-Son Flower	Heptacodium miconioides	5	5 - 6m	2.5 - 3m		Native to China, now rare in wild. Single stemmed, tree form. Terminal clusters of fragrant, nectar-rich, creamy-white flowers in late summer to early fall, very attractive to pollinators. Flowers, in clusters of seven, (hence the name), are followed by small, fruit, each crowned by a showy, starry cluster of five, cherry-red calyces that persist on the tree until frost. Ornamental, tan, exfoliating bark. Good in shrub border or woodland garden. Full sun to partial shade, average to moist, well-drained soil.	59.95 (18) 79.95 (8)
Temple of Bloom® Seven-Son Flower	Heptacodium miconioides 'SMNHMRF' (Temple of Bloom)	5	2 - 3m	2 - 3m		Species Native to China. Compact, earlier-blooming than species. Dense clusters of fragrant, creamy-white flowers from mid-summer to early fall. Fruit and starry, cherry-red calyces appear earlier as well, providing a longer period of late-season show. Multi-stemmed form. Blooms on new wood. Ornamental tan, exfoliating bark is a real standout in winter. Full sun to partial shade, average to moist, well-drained soil.	49.95 (15 Ca) 69.95 (5)
Walnut/Butternut	Juglans					<b>Drought tolerant - Tap-rooted - Attracts wildlife</b>	
Butternut	Juglans cinerea	4	20m	15m		Native to NE US. Open, spreading habit with dark green, compound leaves. Delicious nuts have rich flavor. Root system produces chemical called Juglones within drip line of tree, toxic to many plants, including azaleas and rhodos, peonies, blueberries, tomatoes, peppers, potatoes, etc. Hardy. Requires full sun, moist, well-drained soil. Drought tolerant. Tap-rooted.	59.95 (22)
Eastern Black Walnut	Juglans nigra	5	22 - 30m	22 - 30m		Native to Eastern US. Large tree, oval to rounded crown, requires space, not suitable as a street tree. Compound leaves emerge late in spring and drop early in fall. Nuts mature in fall, falling to ground, attract wildlife. Edible, but hard to extract. Root system produces chemical called Juglones within drip line of tree, toxic to many plants, including azaleas and rhodos, peonies, blueberries, tomatoes, peppers, potatoes, etc. Requires full sun, moist, well-drained soil. Drought tolerant. Tap-rooted.	59.95 (6)

TREES 2023 Blue - New 2023							Red - Three or Less in stock Blue - New 2023- Supplier Price/(#Stock)
Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	
Sweet Gum	Liquidambar					Deer Resistant	
Worplesdon Sweet Gum	Liquidambar styraciflua 'Worplesdon'	5	18m	17m		Pyramidal when young, oval to rounded crown with age. Glossy, dark green leaves change to beautiful yellow, reds, oranges & purples in the fall. Female flowers give way to hard, bristly "gumballs" that usually remain on the tree through the winter, before dropping. Full sun, average to medium moist soil and space for root development.	239.95 (4)
Tulip	Liriodendron					Native to Eastern NA - Deer Resistant	
Tulip tree	Liriodendron tulipifera	5	24m	9m		Tall, broad, conical habit. Beautiful tree with distinctive leaves and large green-yellow tulip shaped flowers late spring. Yellow fall colour. Prefers moist, well-drained soil.	39.95 (20 L)
Variegated Tulip Tree	Liriodendron tulipifera 'Aureo-marginatum' (syn. Majestic Beauty)	5	12 - 18m	4.5 - 7.6m		Beautiful tree with distinctively shaped green leaves with the added bonus of variegated yellow margins. Large, green-yellow tulip shaped flowers late spring. Yellow fall colour. Prefers moist, well-drained soil.	249.95 (1) May not be var.
Amur Maackia	Maackia					Deer Resistant	
MaacNificent® Amur Maackia	Maackia amurensis 'JFS Schichtel1' (MaacNificent)	4	9m	6 - 7.6m		Vigorous, upright branching, symmetrical vase-shaped tree in the pea family. Compound foliage emerges in spring with a fuzzy underside making it appear very showy silvery-green in colour, maturing to green. Upright spikes of white flowers in July. Ornamental bark is coppery bronze, exfoliating with age. Prefers full sun, moist, well-drained soil. Tolerant of drought and partial shade.	229.95 (5)
Magnolia	Magnolia					Site in location protected from NW winter winds - Full sun to partial shade - Rich, moist, well-drained, acidic soil - Mulch root zone	

TREES 2023 Blue - New 2023 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2023- Supplier Price/(#Stock)
Cucumber Tree	Magnolia acuminata	4	12 - 21m	6 - 10m		Native to Eastern NA. Large, straight-trunked, with pyramidal crown. Slightly fragrant, greenish-yellow, tulip-like flowers in May. Fruit is followed by cone-like, green, warty, cucumber-like fruit (seedcones). Fruits mature to showy, red colour late summer. Yellow fall colour. Prefers rich, moist, well-drained loams in full sun to partial shade. Can be intolerant of soil extremes (dry or wet). Needs space.	79.95 (9)
Betty (Little Girls Series) Hybrid Magnolia	Magnolia 'Betty'	5	3 - 5m	3 - 5m		Hybrid (M. lilliflora 'Nigra' x M. stellata 'Rosea') Part of the Little Girls Series of magnolias. Rounded, shrubby habit. Large, cup-shaped flowers are reddish-purple with white insides. Spring bloom is a little later than saucer and star magnolias. New foliage has red-copper tints, turn green. Yellow to bronze copper tones fall colour. May sporadically bloom again later in the summer.	179.95 (6 Cn)
Butterflies Magnolia	Magnolia 'Butterflies'	5	5 - 7m	3 - 5m		Hybrid (M. acuminata x M. denudata) Upright, pyramidal habit, single-stemmed tree. Produces non-fading, upright, tulip-shaped, fragrant, butter-yellow flowers in early spring before foliage.	229.95 (3 Ca)
Elizabeth Magnolia	Magnolia 'Elizabeth'	5	6 - 10m	3.6 - 6m		Hybrid (M. acuminata x H. denudata). Fragrant, tulip-shaped, 7.6cm (3") wide, yellow flowers have tinges of yellow-green near base. Flowers bloom at branch tips, same time as leaves begin to unfurl. Sterile variety, rarely produces fruit.	219.95 (3)
Galaxy Magnolia	Magnolia 'Galaxy'	5	6 - 9m	3 - 4.5m		Hybrid (M. lilliflora 'Nigra' x M. sprengeri 'Diva'). Large, narrow, pyramidal, single-trunked tree with ascending branching. Dark, red-purple in bud open to large, fragrant, reddish-purple blooms in late spring, avoids risk of frost damage.	149.95 (10)
Genie Magnolia	Magnolia 'Genie'	5	4m	2m		Hybrid (M. soulangiana x M. lilliflora 'Nigra'). Compact, pyramidal growth habit with green, ovate foliage. Fragrant, 6-inch, maroon-magenta flowers open tulip-shaped and mature to goblet-like as they unfurl. Blooms vigorously in midspring followed by sporadic flowering thereafter.	49.95 (17)

TREES 2023 Blue - New 2023 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2023- Supplier Price/(#Stock)
Judy Zuk Magnolia	Magnolia 'Judy Zuk'	5	6 - 8m	2 - 2.4m		Cultivar of M. x brooklynensis. Upright form. Large, sterile, tulip-shaped, yellow flowers with distinctive orange, apricot & pink highlights, and plum tinges at base, with fruity fragrance. Large, green leaves. Named in honor of President of Brooklyn Botanic Garden.	239.95 (4) 219.95 (5 Wi)
Leonard Messel Star Magnolia	Magnolia x loebneri 'Leonard Messel'	5	3 - 6m	3 - 5.4m		Hybrid ( <i>M. kobus</i> x <i>M. stellata</i> ). Multi-stemmed form. In early spring, gorgeous deep pink buds open to fragrant, star-like, strappy blooms, purplish-pink outside and white inside. Very hardy and frost resistant variety.	89.95 (19) 99.95 (15)
Legacy Magnolia	Magnolia 'Legacy'	5	5 - 7m	2 - 3.5m		Hybrid ( <i>M. sprengeri</i> 'Diva' x <i>M. denudata</i> 'Rosea') Very large flowers in April-May. They are purplish red at the base lightening to pale pinkish-white near the outer edges. Flowers are white inside. Protact from harsh winter wind.	69.95 (1)
Nigra (Mulan) Magnolia	Magnolia liliflora 'Nigra'	6	2.4 - 4m	2.4 - 4m		Compact, rounded, shrubby form. Lily-shaped blooms are narrow, dark, reddish-purple outside, pale-purple inside. Midseason bloomer.	89.95 (2)
Pink Star Magnolia	Magnolia stellata 'Rosea' (Pink Star)	5	3 - 5m	1 - 3m		Multi-stemmed, dense, upright form. In early spring buds open to fragrant, dark pink, long-petalled, strappy flowers, that fade to a lighter pink as flowers mature.	79.95 (1) 99.95 (5)
Royal Star Magnolia	Magnolia kobus var. stellata 'Royal Star'	5	3 - 6m	2.4 - 5m		Species native to Japan. Shrubby, multi-stemmed form. Large, 7.6-10cm (3-4"), white, fragrant, "double", star-like flowers. Blooms in spring, two weeks later than species.	89.95 (1) 99.95 (9)
Saucer Magnolia	Magnolia x soulangeana	5	6 - 7m	6 - 7m		Hybrid ( <i>M. denudata</i> x <i>M. liliflora</i> ) Usually multi-stemmed tree with rounded crown. Flowers open before foliage in early spring, are large, 20cm diameter, fragrant, cup-like, purplish-pink in colour with white interior.	69.95 (7)
Sunsation Magnolia	Magnolia 'Sunsation'	5	5 - 6m	2 - 3m		A sister seedling to M. 'Sun Spire' from hybridizer August Kehr, New Zealand. Parentage: ( <i>M. 'Woodsman'</i> x <i>M. 'Elizabeth'</i> ). Upright, pyramidal when young, with slightly spreading habit with age. Deep-yellow, goblet (15-18 cm diameter) shaped blooms flushed with pink. Late flowering, blooms mid-spring. Full sun to partial shade.	99.95 (20 L) 219.95 (2) 229.95 (10 Cn)

<b>TREES 2023</b> <b>Blue - New 2023</b> <b>Common Name</b>	<b>Latin name</b>	<b>Zone</b>	<b>Height (m)</b>	<b>Spread (m)</b>	<b>NS Native</b>	<b>Description</b>	<b>Red - Three or Less in stock</b> <b>Blue - New 2023- Supplier</b> <b>Price/(#Stock)</b>
Susan (Little Girls Series) Hybrid Magnolia	Magnolia 'Susan'	5	2.5 - 3m	2.5 - 3m		Hybrid (M. liliflora 'Nigra' x M. stellata 'Rosea'). Blooms a bit later than Star & Saucer Magnolia's. Multi-stemmed, shrubby tree. Red-purple buds open to large goblet-shaped, fuchsia flowers.	<b>69.95 (15 Si)</b> <b>99.95 (4) (10 Si)</b>
Yellow Bird Magnolia	Magnolia 'Yellow Bird'	5	6 - 12m	3 - 7m		Hybrid (M. acuminata var. subcordata x M. x brooklynensis 'Evamaria'). Upright, conical to pyramidal tree with large, goblet-shaped, to 7.6cm (3"), yellow flowers in spring, blooming as new leaves emerge. Full sun to partial shade. Rich, moist, well-drained soil.	<b>299.95 (3 Ca)</b>
<b>Crabapple</b>	<b>Malus</b>					<b>Full sun, well-drained soil - Attracts pollinators, birds</b>	
Adirondack Crabapple	Malus 'Adirondack'	4	6m	5m		Upright, slow-growing. Deep red buds mature to lighter red and open to white. Small bright orange-red fruit	<b>69.95 (1)</b> <b>79.95 (2)</b>
Dolgo Crabapple	Malus 'Dolgo'	3	7 - 8m	5 - 6m		White flowers give way to bright red large edible fruit. Make nice jelly	<b>69.95 (3)</b>
Gladiator Crabapple	Malus x adstringens 'Durleo' (Gladiator)	4	3 - 6m	1.5 - 3m		Narrow, upright form. Dazzling, purple foliage with masses of rosy-pink flowers in spring, followed by small purple fruit late summer.	<b>59.95 (2)</b> <b>119.95 (10)</b>
Golden Raindrops® Crabapple	Malus 'Schmidtcutleaf' (Golden Raindrops)	3	7m	5m		Upright, vase-shape. Pure white flowers produce small, 1/4" diameter, clean, abundant, golden-yellow fruit. Unusual, fine-textured, cutleaf green foliage. Very good resistance to powdery mildew, rust and scab.	<b>99.95 (4)</b>
Harvest Gold Crabapple	Malus 'Harvest Gold'	4	6m	4.5m		Upright spreading growth habit. Profuse white fragrant flowers in spring followed by persistent golden fruit. Excellent disease resistance.	<b>89.95 (3)</b>
Indian Magic Crabapple	Malus 'Indian Magic'	4	5 - 6m	5 - 6m		Broad, rounded form, upright spreading branches. Dark red buds in spring open to large, deep pink flowers. Glossy, bright-red, 1/2 inch wide fruit turns reddish-orange after frost. Deep green leaves turn golden orange in fall.	<b>69.95 (37)</b>
Makamik Crabapple	Malus 'Makamik'	3	10m	4m		Large semi-double rose-red blossoms and red fruit. Hardy and disease resistant. Bronze colored foliage	<b>79.95 (1)</b> <b>99.95 (3)</b>

TREES 2023 Blue - New 2023 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2023- Supplier Price/(#Stock)
Redbud Crabapple	Malus zumi var.calocarpa (Redbud)	4	3.6 - 6m	3.6 - 6m		Rounded gracefully spreading shape. Abundant clusters of fragrant soft pink flowers fading to white. Small bright red fruit that will persist into winter unless the birds eat them first. Full sun, well drained soil. Resistant to scab.	129.95 (1)
Red Jade Weeping Crabapple	Malus x 'Red Jade'	4	4 - 5m	5 - 6m		Weeping form. White buds tinged pink open to white flowers in spring. Small, red fruit follow flowers. Branches can weep close to the ground. Full sun, well-drained soil.	79.95 (1) 109.95 (9)
Royal Beauty Weeping Crabapple	Malus 'Royal Beauty'	3	3m	2m		Small weeping, pink flowers, red foliage. Excellent disease resistance	89.95 (1)
Royal Raindrops® Crabapple	Malus 'JFS-KW5' (Royal Raindrops)	4	6 - 7m	4 - 5m		Upright, rounded to pyramidal, growth habit. Crimson buds open to single, deep pink flowers before the leaves emerge. Flowers are followed by small, bright red crabapples. Unique, cut-leaf foliage emerges purple and maintains this color, then turning bronze and orange in the fall. Superior disease resistance.	(2) 89.95 (1)
Sargent's Crabapple	Malus sargentii	3	3m	4m		Small sized tree, with low, spreading shape. White flowers in spring, followed by green leaves, small red, persistent fruit. Excellent disease resistance. Full sun.	79.95 (2) 99.95 (2)
Starlite® Crabapple	Malus 'Jeflite' (Starlite)	4	3 - 6m	3 - 6m		Red flower buds open to stunning clusters of fragrant, white flowers. Dark green foliage turns yellow in fall. Showy, abundant red fruit in fall.	99.95 (7)
Sugar Tyme™ Crabapple	Malus 'Sutyzam' (Sugar Tyme)	4	6m	5m		Snowy-white flowers open from pink buds, cover the entire tree. Mass of small 1/2 inch, red, glossy fruit last well into winter until cleaned off by birds. Excellent disease resistance.	4
Mulberry	Morus						
White (Korean or Chinese) Mulberry	Morus bombycis (syn. M. australis)	6b	2 - 3m	2 - 3m		Native E. Asia. Fruits and leaves are edible. Used as feed in raising silkworms. Widely used for fibre production, for paper and cloth. Self fertile. Full sun to partial shade. Moist, well-drained soil.	139.95 (5 Sp)
Red Mulberry - See Fruit Tree 2023 List							
Black Gum	Nyssa					Attracts pollinators, birds	

TREES 2023 Blue - New 2023 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2023- Supplier Price/(#Stock)
Sourgum / Black Gum	Nyssa sylvatica	4	16m	10m		Native to Eastern NA. Beautiful tree, pyramidal shape when young, to rounded form when mature. Large, glossy ovate green leaves, clusters of 1/2" blue-black fruit. Considered a "honey tree" to pollinators. Attracts large numbers of birds, varied species. Gorgeous multi fall colours; scarlet, orange, yellow, purple. Tap-rooted, therefore difficult to transplant. Prefers sun to part-shade. Needs acidic soil, moist to wet, but also adapts to dry conditions.	39.95 (2)
Wildfire Black Gum		4	10 - 15m	9 - 10m		Upright, oval to rounded crown. New foliage red flushes to green by summer. Small non-showy flowers produce dark-blue oval fruit. Brilliant red fall colour. Needs acidic soil, moist to wet, but also adapts to dry conditions.	239.95 (2)
<b>Sourwood</b>	<b>Oxydendrum</b>					<b>Attracts pollinators - Site protected from NW Winds</b>	
Sourwood	Oxydendrum arboreum	6	6 - 9m	4m		Native to Eastern & SE US. Slow growing, understory tree with straight, narrow trunk and narrow crown. Waxy, white, lily of the valley-like flowers in early summer, are attractive to bees. Flowers give way to silvery-grey seed capsules. Glossy, green leaves turn bright, crimson-red in fall. Full sun to partial shade. Rich, moist, acidic, well-drained soil.	350.00 (2 Sp)
<b>Persian Ironwood / Persian Witch Hazel</b>	<b>Parrotia</b>					<b>Native to N. Iran, Caucasus - Deer Resistant</b>	
Persian Witch Hazel	Parrotia persica	5	6 - 12m	6 - 10m		Small tree in the witchhazel family, with red, spidery flowers in late winter. New leaves emerge reddish-purple, maturing to green. Brilliant fall colour, orange to scarlet. Attractive, exfoliating bark to show white, green or tan patches. Very and disease resistant. Prefers full sun, moist, slightly acidic, well-drained soil. Tolerates light shade and a wide range of soil conditions.	209.95 (3) 219.95 (1) 299.95 (3)

TREES 2023 Blue - New 2023 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2023- Supplier Price/(#Stock)
Persian Witch Hazel (Low Std).	Parrotia persica	5	6 - 12m	6 - 10m		Small tree in the witchhazel family, with red, spidery flowers in late winter. New leaves emerge reddish- purple, maturing to green. Brilliant fall colour, orange to scarlet. Attractive, exfoliating bark to show white, green or tan patches. Very and disease resistant. Prefers full sun, moist, slightly acidic, well-drained soil. Tolerates light shade and a wide range of soil conditions.	279.95 (3 Sp)
Ruby Vase® Persian Witch Hazel	Parrotia persica 'Ruby Vase'	5	9m	5m		Upright, narrow, vase-shaped habit. Red, spidery flowers late winter. New leaves emerge red-tipped, maturing to dark green. Beautiful, orange to red fall colour.	189.95 (3) 209.95 (3) 299.95 (3)
Amur Cork Tree	Phellondendron						
Amur Cork Tree	Phellondendron amurense	4	13m	9m		Native to Northern China, Korea & Japan. Rounded, broadly-spreading crown. Attractive, corky bark, glossy green, compound leaves turn yellowish in fall. Dioecious, separate male & female trees. Pollinated flowers on female trees produce fleshy, pea-sized fruits, mature to black in fall. Full sun, moist, well- drained soil. Can tolerate drought once mature.	69.95 (6)
London Plane Tree	Platanus					Deer Resistant	
Bloodgood London Plane Tree	Platanus x acerifolia 'Bloodgood'	5	12 - 24m	9 - 12m		Hybrid P. occidentalis (American sycamore) x P. orientalis (Oriental planetree). Large tree, pyramidal when young, becoming rounded to spreading with age. Large medium-green leaves are maple-like in shape. Exfoliating showy bark is cream, olive and brown patches. Female, reddish flowers produce burr like fruit that hang from branches through the winter. Full sun, moist, well-drained soil. Tolerates light shade.	239.95 (6 NVK)
Aspen	Populus						
Upright European Aspen	Populus tremula 'Erecta	3	9 - 12m	1.5 - 3m		Native to Europe. Fast-growing, narrow columnar growth habit, shiny green toothed leaves shimmer in wind, turn amber color in fall. Full sun, moist, well- drained soil.	39.95 (29)

TREES 2023 Blue - New 2023 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2023- Supplier Price/(#Stock)
Balsam Poplar	Populus balsamifera	2	30m	16m	Yes	NS Native species. Hardy, large, fast-growing tree with oval leaves are thick, shiny, dark-green in colour with white undersides. Branchlets and winter buds are sticky, look like they are varnished and are aromatic. Bright yellow fall colour.	29.95 (3)
Ornamental Cherry	Prunus					Attracts pollinators, birds	
Akebono Yoshino Cherry	Prunus x yedoensis 'Akebono'	6	6-10m	10m		Wide branching, naturally layered habit. Masses of large, semi-double flowers open soft pink, fading to white as they open in spring. Green foliage turns golden-yellow with orange highlights in fall. Prefers rich, moist, well-drained soil. Full sun. Parentage: (P. subhirtella x P. speciosa)	129.95 (14)
Black Cherry	Prunus serotina	3	24m	10m	Yes	Very hardy, narrow, columnar to rounded tree with fragrant white flowers. Small, red cherries ripen in late summer to a dark purple-black and can be used for jams and jellies. Glossy, green foliage turns to shades of yellow and rose in fall.	49.95 (35 Wi)
Kiku-shidare-zakura Weeping Ornamental Cherry	Prunus serrulata 'Kiku-shidare-zakura'	5	5m	5m		Top-grafted. Clear, bright-pink, double flowers cover bare branches in spring until new leaves emerge. New leaves are bronze-coloured, maturing to green.	199.95 (10 Wi)
Kwanzan Japanese Ornamental Cherry	Prunus serrulata 'Kwanzan'	5	4m	4m		Top-grafted. Upright, rounded with age. Foliage opens coppery-bronze changing to green. Large, showy, double, pink flowers in spring. Sterile, does not produce fruit. Foliage turns reddish-copper in fall. Prefers rich, moist, well-drained soil. Full sun.	199.95 (15 Wi)
Little Twist® Ornamental Cherry	Prunus incisa 'CarltonLT' (Little Twist)	5	1.75 - 2m	1.5 - 1.75m		Top-grafted. Dense, dwarf, compact habit. Interesting twiggy, zigzag branches, provide added interest, especially in winter. Masses of showy, somewhat pendulous, white, single flowers with pink centres cover the branches in early spring, followed by green leaves. Foliage turns burgundy in the fall. Prefers rich, moist, well-drained soil. Full sun to partial shade.	239.95 (3)

TREES 2023 Blue - New 2023 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2023- Supplier Price/(#Stock)
Marion Jarvie Ornamental (Peach) Std.	Prunus 'Marion Jarvie'	5	5m			Originated as a cutting, brought from Japan in 1997 by gardener Marion Jarvie of Toronto, ON. The tree grew into a lovely, double flowered, bright pink spring bloomer and became highly sought after. Thought to be a double-flowered form of an ornamental peach from Northern China (Prunus persica flora plena, but species is still to be confirmed) the tree has now been propagated and offered for sale by Canadale Nurseries, St- Thomas ON, as a top-grafted standard. Can be maintained in a more compact form through pruning. Sterile, does not produce fruit. Best flowering in full sun. Well-drained soil with average moisture.	179.95 (5 Ca)
Rancho Sargent's Cherry	Prunus sargentii 'Rancho'	5	5 - 6m	3 - 4m		Narrow, upright vase-shaped crown. Clusters of single pink flowers in spring. Foliage emerges reddish-bronze, maturing to glossy-green. Red to purple-black fruit is adored by birds. Fall colour is a mix of yellow, orange and red.	239.95 (5 NVK)
Royal Burgundy Japanese Ornamental Cherry	Prunus serrulata 'Royal Burgundy'	5	6m	4m		Top-grafted. Upright, broadly vase-shaped. Attractive, deep-purple foliage. Large, showy, double, pink flowers in spring. Foliage turns outstanding orange in fall. Prefers rich, moist, well-drained soil. Full sun.	159.95 (3) 199.95 (15 Wi)
European Birdcherry	Prunus padus						
Colorata European Birdcherry	Prunus padus 'Colorata'	4	6 - 8m	5 - 8m		Native to Europe, Asia. Rounded crown, compact habit. Bronze to reddish-purple new leaves, maturing to green. Fragrant, pendulous, spring clusters of deep pink buds open to pink flowers, produce astringent, pea-sized, black cherries in midsummer. Closely related to chokecherry, fruit is beloved by birds. Yellow fall colour. Full sun to partial shade. Well-drained soil.	39.95 (8)
Pear (Ornamental)	Pyrus					Attracts pollinators, birds	

TREES 2023 Blue - New 2023 Common Name		Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2023- Supplier Price/(#Stock)
Chanticleer Ornamental Pear	Pyrus calleryana 'Chanticleer'	5	7.6 - 10m	4.5m		Species Native to China & Taiwan. Symmetrically, attractive, narrow, pyramidal shape, thornless. In spring, showy profusion of white, five-petalled flowers produce small, inedible, green fruit, attractive to birds. Narrow, oval, glossy, deep-green leaves turn attractive reddish-purple in fall. Resistant to fireblight. Full sun, dry to medium, well-drained soil. Drought tolerant. Makes a good street tree.	99.95 (7) 119.95 (7) 129.95 (8)
Redspire Ornamental Pear	Pyrus calleryana 'Redspire'	5	13 - 15m	6 - 8m		Upright, pyramidal to oval crown with ascending branches. Profusion of single, white flowers in spring produce small, inedible, green fruit, attractive to birds. Lush, oval, dark-green, glossy leaves with reddish tinge in summer, slowly turns yellow-orange to reddish-purple in fall. Resistant to fireblight.	119.95 (3)
Mountain Frost Ornamental Pear	Pyrus ussuriensis 'Bailfrost' (Mountain Frost)	3	7 - 8m	6 - 8m		Upright, pyramidal, narrow crown with ascending branches. Profusion of single, white flowers in spring produce, sparse, non-edible, fruit. Dark green, leathery foliage turns yellow, late fall. Full sun.	59.95 (5)
Oak	Quercus					Attracts wildlife	
Swamp White Oak	Quercus bicolor	4	15 - 18m	15 - 18m	Yes	NS Native species. Fast growing oak, broad, rounded crown, short trunk. Lustrous, heavy textured green leaves, silvery-white underneath, rounded lobes. Produces acorns, attractive to wildlife. Fall color is yellow-brown to reddish color. Prefers full sun, moist to wet, acidic soil. Adapts well to poorly drained soil, a good tree for low ground, wet spots.	149.95 (1) 59.95 (10 Wi)
Curly Head Dwarf Turkey Oak	Quercus cerris 'Curly Head'	5	2m	1.5m		Shrubby, distinctly upright habit. Slow-growing. Highly ornamental, curly, glossy, congested, deep-green leaves that turn bronze-red in fall. Ht & spr 10 yrs.	199.95 (2)
Pin Oak	Quercus palustris	5	15 - 21m	12 - 18m		Native to NE US, SE Ontario. Broad, pyramidal crown. Dark, glossy green leaves with five, bristle-tips, turn red in fall. Produces rounded acorns, may take up to 15-20 years to bear fruit, attractive to wildlife. Prefers full sun, moist to wet, acidic soil. Tolerates some flooding.	29.95 (1) 59.95 (7) 79.95 (20) 149.95 (15)

Green Pillar Pin Oak	Quercus palustris 'Pringreen' (Green Pillar)	5	15 - 18m	3.6 - 4.5m		Species Native to NE US, SE Ontario. Narrow, columnar growth, with strong, central leader, nearly vertical branches. Dark green leaves change to deep red to scarlet-red in autumn. Prefers Full sun, moist to wet, acidic soil. Tolerates some flooding.	99.95 (1) 149.95 (1)
Kindred Spirit® Columnar Oak	Quercus x warei 'Nadler' (Kindred Spirit)	5	8 - 9m	1.5 - 1.7m		Hybrid of (Q. robur 'Fastigiata' x Q. bicolor) Extremely tightly branched, narrow, upright, columnar habit. Glossy, dark-green foliage with silvery undersides, yellow to yellow-brown fall colour. Leaves persist on the tree in winter. Full sun, average to moist, well-drained soil.	229.95 (1)
Regal Prince® Columnar Oak	Quercus x warei 'Long' (Regal Prince)	5	12 - 18m	6 - 7.6m		Hybrid of (Q. robur 'Fastigiata' x Q. bicolor). Narrow and columnar growth. Glossy, leathery, dark-green foliage. bright green with a soft light green color on the underside. Yellow fall colour. Excellent mildew resistance. Oval acorns are ornamental by turning lime green in summer, attractive to wildlife. Full sun, moist, well-drained soil. Tolerates drought.	129.95 (2)
English Oak	Quercus robur	5	12 - 21m	12 - 21m		Native to Europe, has naturalized as a NS Native. A majestic tree, with a broad round head, short trunk, and glossy, variable shaped leaves with rounded lobes. Produces oval acorns attractive to wildlife. No appreciable fall colour. Holds foliage during winter. Full sun, moist, well-drained soil. Tolerates drought.	99.95 (1)
Purple English Oak	Quercus robur 'Atropurpurea'	5	10m	8m		Species Native to Europe & Asia. Small tree with a rounded crown. Slow growing when young. Smokey purple coloured leaves.	149.95 (2)
Red Oak (American Red)	Quercus rubra	4	15 - 22m	15 - 22m	Yes	NS Native species. Rounded, broadly spreading, irregular crown. Dark, lustrous-green leaves, grey-green underneath, with pointed tips, turning red in fall. Acorns attractive to wildlife, may take several years to produce an abundance of fruit. Full sun, dry to medium soil. Tolerates drought.	19.95 (76) 39.95 (7) 49.95 (1) 79.95 (19) 229.95 (6) 269.95 (15) 69.95 (35 Wi)
Willow	Salix						

TREES 2023 Blue - New 2023 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2023- Supplier Price/(#Stock)
Dragon (Japanese Fantailed) Willow	Salix udensis 'Sekka' (Dragon Willow)	5	3 - 4m	3 - 5m		Male cultivar. Large, rounded, multi-stemmed, spreading form. Flattened, reddish-purple, contorted, claw-like branchlets are favoured in floral arrangements. Contrasting, upright, silvery-grey, 3.8cm male catkins, with yellow anthers appear in spring, before foliage. Narrow, bright green leaves with silvery undersides. Unusual, contorted form in winter.	34.95 (5) 39.95 (2)
Dragon's Claw (Peking) Willow	Salix matsudana 'Tortuosa' (Dragon's Claw)	5	6 - 10m	3 - 6m		Upright, female clone. Contorted, twisting branches, branchlets, and leaves. Good as specimen or rain gardens. Grey-brown, curling branches provide excellent winter interest.	29.95 (6) 59.95 (2)
Golden Curls Willow	Salix x 'Erythroflexuosa' (Golden Curls)	5	3 - 5m	3 - 5m		Hybrid (S. alba 'Tristis' x S. matsudana 'Tortuosa'. Shrubby habit, semi-pendulous form. Golden twisted branches and curled leaves. Full sun to partial shade. Average, moist to wet soil.	69.95 (4) (10 Ca)
Golden Sunshine Willow	Salix sachalinensis 'Golden Sunshine'	4	5m	3m		Large, dense, upright, multi-stemmed shrub with a spreading habit. Beautiful, glossy, narrow, bright golden foliage all summer. Fast-growing. Excellent as a specimen, screen or hedging. Prefers full sun, moist to wet soil, however is very adaptable to dry soil as well.	39.95 (15)
Scarlet Curls Willow	Salix 'Scarcuzam' (Scarlet Curls)	5	3 - 5m	3m		Hybrid, (according to Dirr) probably has S. matsudana 'Tortuosa' as one parent and S. alba 'Britzensis' as the other. Medium-sized shrub with ornamental, spirally twisted, spreading branches. Pale-yellow catkins in spring. Twisted, orange or red annual growth is good for floral arranging, prune in spring encourages new colourful, contorted branches. Full sun to partial shade, moist to wet soil.	29.95 (2) 39.95 (1)
Golden Weeping Willow	Salix alba 'Tristis'	4	20m	20m		A graceful weeping tree with golden-yellow bark and light green leaves	99.95 (9) 89.95 (15 Wi)
Sassafras	Sassafras					Attracts pollinators, wildlife	

TREES 2023 Blue - New 2023 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2023- Supplier Price/(#Stock)
Sassafras	Sassafras albidum	4	10m	10m		Native to Eastern NA. Ornamental, small to medium-sized tree. Large, green, irregularly-lobed leaves. Form is shrubby in youth, but with removal of root suckers will form a dense pyramidal tree, or allow to spread and naturalize for screening. Attractive green-yellow flowers in spring attract pollinators, later produce pendant clusters of drupe bluish-black berries on scarlet stalks. Excellent yellow, purple and red fall color. Drought tolerant. Fruit attractive to wildlife.	49.95 (2)
<b>Mountain Ash</b>	<b>Sorbus</b>						
Western / Sitka Mountain Ash	Sorbus sitchensis	5	6m			Native to PNW. Small, low-branched form with rounded crown. Compound leaves are shiny, blue-green on top and pale underneath. Flat-topped white flower clusters in spring produce small, orange-red berries in fall. Red fall colour. Full sun to partial shade. Prefers rich, moist, well-drained soil but tolerates poorer soils.	89.95 (5)
<b>Stewartia</b>	<b>Stewartia</b>						
Japanese Stewartia	Stewartia pseudocamellia	5	13m	10m		Native to Japan. White, camellia-like flowers early spring, striking bark patches resemble pieces of a puzzle. Red, yellow and orange autumn leaf color.	139.95 (3) 199.95 (1) 259.95 (4)
<b>Japanese Snowbell</b>	<b>Styrax</b>					<b>Site protected from winter NW Wind</b>	
Japanese Snowbell	Styrax japonicus	6	6-9m	6-9m		Highly attractive small tree, slow growing, with strongly horizontal branching, is loaded with cascading, fragrant, bell-shaped white flowers in late spring. Green leaves turn red or yellow in fall. Moist, well-drained soil. Full sun to partial shade. Attracts butterflies.	99.95 (4)
Marley's Pink Parasol® Japanese Snowbell	Styrax japonicus 'JLWeeping' (Marley's Pink Parasol)	6	2.4m	1.2m		Delicate, small weeping tree, with lightly-scented, 2.5cm, nodding, light-pink, bell-shaped flowers, with red calyxes, dangling below branches, mid to late spring. Glossy, pointed, deep green leaves turn an outstanding golden colour in fall. Showy, gray fruit (drupes) are displayed, late summer into fall. Rich, moist, well-drained soil. Sun to partial shade.	139.95 (2) 199.95 (2)
<b>Japanese/Chinese Tree Lilac</b>	<b>Syringa</b>					<b>Deer Resistant</b>	

TREES 2023 Blue - New 2023 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2023- Supplier Price/(#Stock)
Japanese Ivory Silk Tree Lilac	Syringa reticulata 'Ivory Silk'	4	10m	6m		Native to Japan. Sturdy, compact tree, fragrant, creamy white flowers in June. Attractive, shiny, reddish-brown bark. Prefers rich, moist, well-drained soil in full sun.	119.95 (4) 129.95 (12) (10 Bak Fall) 139.95 (18)
Peking Chinese Tree Lilac	Syringa reticulata subsp. pekinensis	4	5 - 6m	3 - 5m		Native to Northern China. Small, multi-trunked tree with upright, arching form. In spring, adorned with showy, fragrant, panicles of yellow-white flowers produce loose clusters of brown capsules that persist into winter. Green leaves in summer. Rich, brown, peeling bark is attractive in winter. Full sun. Rich, moist, well-drained soil.	89.95 (1) 119.95 (5) 129.95 (14)
Linden / Basswood	Tilia					Attracts pollinators	
Basswood (American Linden)	Tilia americana	3	15 - 24m	10 - 15m		Native to Central and Eastern US. Stately, well formed tree with heart shaped leaves and a clean straight trunk. Fragrant, pale-yellow flowers are very attractive to bees. Flowers can also be used to make tea. Full sun to partial shade. Moist, well-drained soil.	49.95 (28) 199.95 (4)
Little Leaf Linden	Tilia cordata	4	15.5m	8m		Native to Europe, SW Asia. Dense, pyramidal form. Shiny, dark-green, heart-shaped leaves turn pale green to yellow in fall. Late spring, fragrant, light-yellow flowers are very attractive to bees. Flowers produce small nutlets with attached leafy wings that ripen late summer, dropping to ground. Full sun to partial shade. Moist, well-drained soil.	119.95 (2)
Glenleven Linden	Tilia flavescens 'Glenleven'	4	16m	12m		Pyramidal head, dark glossy green, fall color is yellow	129.95 (1) 149.95 (9) 199.95 (8)
Greenspire™ Linden	Tilia cordata 'PNI 6025' (Greenspire)	4	15m	10m		Strong, spire-like shape. Glossy, dark-green, heart-shaped leaves turn yellow in fall. Late spring, fragrant, light-yellow flowers are very attractive to bees. Adaptable tree. Medium growth rate. Prefers full sun to partial shade. Moist, well-drained soil.	69.95 (2) 99.95 (3)

TREES 2023 Blue - New 2023 Common Name	Latin name	Zone	Height (m)	Spread (m)	NS Native	Description	Red - Three or Less in stock Blue - New 2023- Supplier Price/(#Stock)
Harvest Gold® Hybrid Linden	Tilia x 'Harvest Gold'	4	10 - 15m	6m+		Native to China. Upright, oval-shaped form. Hybrid T. mongolica (Mongolian Linden) x T. cordata). Bright, golden buds, creamy-yellow flowers attract pollinators. Heart-shaped green leaves turn golden-yellow in fall. Attractive, exfoliating bark. Very hardy and disease resistant. Canadian introduction developed in Manitoba.	99.95 (4)
Winter Orange Little Leaf Linden	Tilia cordata 'Winter Orange'	4	12m	6 - 9m		Upright growth habit with a dense, broad, half-open crown. Bright red buds are followed by pendulous clusters of fragrant, creamy yellow-white flowers in summer. Rich green, heart shaped leaves turn yellow in the fall. Bark turns a gorgeous, rich, orange in the winter after the leaves fall. Attracts bees and birds when in flower.	99.95 (9)
Elm	Ulmus
