

Broadleaf Evergreens							red - Three or less in stock blue - New 2023-Supplier Price/(#Stock)
2023 Blue - New 2023 Common Name	Latin name	Zone	Ht (cm/m)	Spr (cm/m)	NS Native	Description	
Bog Rosemary	Andromeda polifolia				Yes	NS Native Species - Shelter from winter wind	
Blue Ice Bog Rosemary	Andromeda polifolia 'Blue Ice'	3	60cm	1m		Low, mounded, spreading form. Small white bell-shaped flowers with pink overtones in spring. Fine-textured, icy-blue, needlelike foliage all year. Prefers full sun to partial shade, rich, moist to wet acidic soil, will tolerate some standing water. Slow-growing.	29.95
Bearberry / Kinnikinnick / Manzanita	Arctostaphylos				Yes	NS Native Species - Deer Resistant - Evergreen groundcover - Fruits attract birds	
Emerald Carpet Manzanita	Arctostaphylos 'Emerald Carpet'	7a	25 - 45cm	1 - 2m		Hybrid of (A. uva-ursi x A. nummularifolia) Low-growing, slightly mounding plant with small, deep-green, evergreen leaves, mahogany stems. Small clusters of white flowers in spring produce red berries. Does well in most acidic soil types, except heavy clay. Full sun to partial shade. Well-drained soil on the lean side. Avoid hot, dry locations, areas exposed to winter NW winds. Winter protection required in NS.	
Massachusetts Kinnikinnick	Arctostaphylos uva-ursi 'Massachusetts'	4	15 - 30cm	40cm		Small, lustrous evergreen mat of foliage, urn-shaped, flowers in spring, produces attractive red fruit by late summer into winter. Foliage red-gold in fall. Best in acidic, well-drained sandy infertile soil. Excellent disease resistance variety. Full sun to partial shade, sandy, well-drained soil.	17.95 (138)
Vancouver Jade Kinnikinnick	Arctostaphylos uva-ursi 'Vancouver Jade'	3	10 - 15cm	60 - 90cm		Extremely winter hardy. Slow-growing, creeping habit with trailing red stems studded with small, leathery, glossy, obovate, dark green leaves. Foliage turns redish-purple in winter. Produces clusters of pretty lantern-shaped pink to white flowers followed by edible, smooth, glossy red berries. Attractive groundcover. Full sun to part shade. Well-drained soil.	17.95 (23)
Japanese Laurel	Aucuba					Tender evergreen, site protected from winter NW winds, or overwinter indoors	
Hosaba Hoshifu (Female) Japanese Laurel	Aucuba japonica 'Hosaba Hoshifu'	7	1.2m	1.2m		Female cultivar. Long, narrow, shiny-green leaves are heavily spotted bright golden yellow. Clusters of early spring flowers produces large, shiny, red fruit that persists into winter. Needs to be situated near male form ('Mr. Goldstrike') for pollination. Partial sun to shade. Moist, well-drained soil. Needs to be sited away from winter wind and protected from hot afternoon sun. Or, makes a fabulous, unique ornamental plant in a container. Move container indoors in cool room for the winter.	24.95 (30)
Mr. Goldstrike (Male) Japanese Laurel	Aucuba japonica 'Mr. Goldstrike'	7	1.2m	1.2m		Male cultivar, striking foliage, glossy, heavily spotted gold evergreen leaves. Upright panicles of tiny, reddish-purple, male flowers bloom in early spring. Does not produce fruit. Partial sun to shade. Moist, well-drained soil. Makes a fabulous, unique ornamental plant in a container. Move container indoors in cool room for the winter.	
Boxwood	Buxus					Deer Resistant - Shelter from winter wind	

Broadleaf Evergreens								
2023								
Blue - New 2023								
Common Name	Latin name	Zone	Ht (cm/m)	Spr (cm/m)	NS Native	Description		red - Three or less in stock blue - New 2023-Supplier Price/(#Stock)
Golden Variegated English Boxwood	Buxus sempervirens 'Aureo-Variegata'	5	1.2 - 1.5m	1.2 - 1.5m		Variegated foliage, green with creamy-yellow margins. Slow growing. Prune to shape. Full sun to partial shade, moist, well-drained soil.		
Denmark Common Boxwood	Buxus sempervirens 'Denmark'	6	2m+	2m+		Large, upright pyramidal shape. Larger, glossy-green leaves. Slow growing.		34.95 (5)
Justin Brouwers Boxwood	Buxus sempervirens 'Justin Brouwers'	6	60cm	60cm		Compact, rounded shape with small, glossy, dark green leaves. Tough, hardy, prefers part shade and moist, well-drained soil. Drought tolerant, Slow growing, dwarf.		19.95 (1)
Golden Triumph Variegated Boxwood	Buxus microphylla 'Golden Triumph'	5	0.8 - 1m	0.8 - 1m		Upright, rounded habit. Glossy green leaves edged with yellow, turning slightly bronze in winter. Slow growing.		45.95 (1)
Green Gem Hybrid Boxwood	Buxus 'Green Gem'	5	0.9 -1.2m	0.9 -1.2m		Slow-growing globe of dense, dark green foliage with a tinge of bronze in the fall. Good winter hardiness. Full sun to part shade. Well-drained soil. Drought tolerant.		39.95 (2)
Green Mountain Hybrid Boxwood	Buxus 'Green Mountain'	5	1.5m	1m		Sheridan Nurseries hybrid. Upright selection, wide pyramidal oval. Can be sheared as an accent plant. Glossy, dark green leaves, all year. Slow growing.		24.95 (17) 39.95 (74) 79.95 (9)
Green Mountain Clipped Cone	Buxus 'Green Mountain' (clipped cone)	5				Sheared into cone shape. Sheridan Nurseries hybrid. Upright selection, wide pyramidal oval. Can be sheared as an accent plant. Glossy, dark green leaves, all year. Slow growing.		79.95 (25 Bak) 89.95 (10 Si) 159.95 (5 Ca)
Green Mountain Spiral	Buxus 'Green Mountain' (spiral)	5				Pruned into upright, spiral shape.		249.95 (3)
Green Velvet Hybrid Boxwood	Buxus 'Green Velvet'	5	1.2m	1.2m		Sheridan Nurseries hybrid. Rounded, full bodied type. Glossy, dark green foliage, all year. Slow growing.		29.95 (2) 24.95 (32) 39.95 (54) (50 Sid) 44.95 (1)
Pincushion Korean Littleleaf Boxwood	Buxus sinica var. insularis 'Pincushion'	5	45cm	60cm		Low, mounded shape, leaves rounded, ovate, light-green, turn bronze tones in winter. Slow growing.		29.95 (1) 52.95 (6)
Schmidt English Boxwood	Buxus sempervirens 'Schmidt'	5	1.2 - 2m	1 - 1.2m		Hardy English boxwood. Oval, upright shape, dark green foliage, all year. Slow growing.		49.95 (5) 59.95 (5)
Edging English Boxwood (True Dwarf)	Buxus sempervirens 'Suffruticosa'	5	30 - 60cm	30 - 60cm		Dwarf, slow growing. Excellent pruned as a low hedge or edging plant. Good resistance to leaf miner.		29.95 (3)
Winter Gem Hybrid Boxwood	Buxus 'Winter Gem'	5	0.6 - 1.2m	0.3 - 0.9m		Dwarf, upright habit. Shiny, dark green foliage of small leaves that can acquire a golden-bronz hue in the winter. Great for small hedges. Full sun to part shade.		39.95 (28)
Japanese Camellia	Camellia japonica					Deer Resistant - Shelter from winter wind.		
Korean Fire Japanese Camellia	Camellia japonica 'Korean Fire'	6b	2m	1m		Species native to China, Korea, Japan. Upright to rounded form. Glossy, dark-green, evergreen leaves. Very early spring, fragrant, flat, single, red flowers with showy yellow stamens. Pennsylvania Horticultural Society Gold Medal Plant Award 2003. Prune, if needed, right after flowering. Full sun to partial shade. Rich, evenly moist, acidic, well-drained soil. This variety has unusually good winter hardiness, however needs a very protected site here in NS.		39.95 (5)

Broadleaf Evergreens							red - Three or less in stock blue - New 2023-Supplier Price/(#Stock)
2023							
Common Name	Latin name	Zone	Ht (cm/m)	Spr (cm/m)	NS Native	Description	
Cotoneaster (Evergreen)	Cotoneaster (Evergreen)					Deer Resistant - Attracts pollinators, birds.	
Cotoneaster (Deciduous) - see Flowering Shrubs 2023 List							
Daphne	Daphne					Deer Resistant - Shelter from winter wind. Very fragrant.	
Burkwood Daphne	Daphne x burkwoodii	5	1 - 1.2m	1 - 1.2m		Hybrid cross (D. caucasica x D. cneorum). Mounding, semi-evergreen shrub with pink buds in spring opening to small, white to light-pink, very fragrant, tubular flowers. May re-flower sporadically again in fall. One of the easiest Daphne's to grow. Slow growing. Full sun to partial shade.	59.95 (2)
Carol Mackie Daphne	Daphne x burkwoodii 'Carol Mackie'	5	0.6 - 1m	1 - 1.2m		Variegated green & creamy-white leaves, often persists into winter. Clusters of very fragrant, light-pink flowers in late spring. Slow growing. Best in partial shade.	59.95 (1)
Eternal Fragrance Hybrid Daphne	Daphne x transatlantica 'BLAFRA' (Eternal Fragrance)	6b	1m	1m		Clusters of fragrant, white tubular flowers with pink throats in spring. Prefers partial shade, well-drained soil..	49.95 (10 Sp)
Perfume Princess® Daphne	Daphne 'DapJur01' (Perfume Princess)	7	1m	1m		Early and long blooming. Evergreen leaves covered in spring with many clusters of larger pink flowers. Blissfully fragrant, with a citrus undertone.	69.95 (5 Sp)
Euonymus / Wintercreeper	Euonymus					Drought tolerant - Full sun to partial shade - Tolerates full shade - Moist, well-drained soil	
Blondy® Euonymus	Euonymus fortunei 'Interbolwiji' (Blondy)	5	0.5 - 0.6m	0.5 - 0.6m		Tidy, mounded habit with yellow, immature stems. Glossy, medium-green leaves with bright, yellow centres that retain colour in fall. Showy berries produced in June split open in fall to reveal showy, orange seeds. Makes a great, low-maintenance evergreen accent or low hedge. Proven Winner variety.	21.95 (18) 29.95 (3) 35.95 (6)
Canadale Gold Euonymus	Euonymus fortunei 'Canadale Gold'	5	1.25m	1.5m		Spreading, irregular mounded habit. Bright golden, yellow leaves with a splash of light green in the center. Full sun to part shade. Average, medium moisture, well drained soils. Very versatile - can be used as a groundcover, foundation plant, or will climb.	21.95 (6) 29.95 (11)
Dan's Delight Euonymus	Euonymus fortunei 'Dandel' (Dan's Delight)	5	1 - 1.2m	0.8 - 1m		Mounding, compact habit. Blue grey foliage with wide creamy margins. Best in partial shade to maintain white colour on leaves. Moist, well drained soil.	42.95 (14)
Emerald Gaiety Euonymus	Euonymus fortunei 'Emerald Gaiety'	5	1 - 1.2m	0.8 - 1m		Upright, mounding habit. Medium-green leaves with irregular, creamy-white margins, turn pinkish in fall. Will climb if provided support. Full sun to partial shade. Moist, well-drained soil.	12.95 (15 NVK) 29.95 (6) 44.95 (15 AVK)
Emerald 'N Gold Euonymus	Euonymus fortunei 'Emerald 'N Gold'	5	1 - 1.2m	0.8 - 1m		Mounding, spreading habit. Glossy, green leaves with showy, irregular, gold margins, turn pinkish in fall.	29.95 (2)
Harlequin Wintercreeper	Euonymus fortunei 'Harlequin'	5	30cm	60cm		Mounding, spreading, ground-hugging habit. Attractive, white and deep green, with hints of pink, variegated leaves. Slow growing. Full sun to light shade.	29.95 (6)

Broadleaf Evergreens							red - Three or less in stock blue - New 2023-Supplier Price/(#Stock)
2023 Blue - New 2023 Common Name	Latin name	Zone	Ht (cm/m)	Spr (cm/m)	NS Native	Description	
Moonshadow Euonymus	Euonymus fortunei 'Moonshadow'	5	0.5 - 0.6m	1 - 1.25m		Low growing, mounding shape, spreading habit. Deep green leaves have a prominent yellow "thumbprint" center. Foliage becomes pink-toned in winter. Full sun to partial shade.	29.95 (10) 39.95 (5) 42.95 (3) 44.95 (25 Ca)
Paloma Blanca Euonymus	Euonymus japonicus 'Lankveld03' (Paloma Blanca)	6b	0.7m	0.7m		Compact shrub with upright form. Dark green foliage with showy brilliant-white new growth in spring. Little to no pruning required. Full sun to partial shade, moist, well-drained soil. Site in location protected from NW winter winds, mulch for added winter protection.	34.95 (4)
Sarcoxie Euonymus	Euonymus fortunei 'Sarcoxie'	5	1 - 1.2m	1 - 1.2m		Vigorous, upright growth habit. Oval, glossy green leaves are partially white-veined. Spring clusters of insignificant greenish flowers produce pinkish-white fruits which crack open to expose orange seeds in fall, attractive to birds. Will climb with support. Partial to full shade, well-drained soil. Drought tolerant.	39.95 (24)
Surespot Euonymus	Euonymus fortunei 'Surespot'	5	0.8 - 1m	0.8 - 1m		A sport of Sunspot. Compact form, glossy-green leaves with bright-gold centers. Berries are produced in June, split open in fall to reveal showy, pink seeds.	44.95 (2)
(BP - Corner by pool) Euonymus	Euonymus fortunei	5				Our own propagated variety, with variegated yellow and green leaves.	24.95 (5)
Salal / Shallon / Teaberry / Wintergreen	Gaultheria				Yes	Deer Resistant - Attracts birds	
Eastern Teaberry	Gaultheria procumbens	4	10-15cm	25-30cm	Yes	NS Native species. Small, soft-pink bell flowers in June and July, followed by large, edible, persistent, scarlet-red fruit. Glossy, evergreen foliage turns bronze in winter. Slow-growing groundcover, plant 30cm apart. Attracts bees and birds. Prefers partial shade to shade, moist, acidic soil	14.95 (58)
Winter Splash Variegated Eastern Teaberry	Gaultheria procumbens 'Gaulbri1' (Winter Splash)	4				Showy, variegated, white and green, evergreen leaves turn pinkish in winter. Pendant, urn-shaped white flower in spring produce persistent, scarlet-red fruit. Slow-growing, moderate habit, groundcover.	22.95 (8) (124 Sid)
Japanese Holly	Ilex crenata					Deer Resistant - Dioecious (Separate Male & Female Plants) - Fruit attractive to birds - Shelter from Winter Wind	
Convexa (Female) Japanese Holly	Ilex crenata 'Convexa'	5	2 - 2.5m	1.5 - 2m		Mounded habit, small, dark-green evergreen leaves in a distinctive, convex shape. Self-fertile, tiny white flowers produce small black berries. Can be sheared for shape. Faster growing than boxwood. Full sun to partial shade, moist, well-drained acidic soil. Tolerates drought once established. Site protected from winter NW winds.	29.95 (1) 39.95 (17) 59.95 (20)
Green Dragon (Male) Japanese Holly	Ilex crenata 'Green Dragon'	6	90cm	1.2m		Mounding, compact, dense foliage that grows in an irregular, sculpted pattern. Small, glossy, dark green leaves with slightly scalloped edges best suits rock gardens. Male cultivar for dwarf pagoda Japanese holly, not much pruning needed although some will be tolerated. Full sun to part shade. Moist, well-drained, slightly acidic soil. Ht & spr over 10 years.	49.95 (2)

Broadleaf Evergreens							red - Three or less in stock blue - New 2023-Supplier Price/(#Stock)
2023 Blue - New 2023 Common Name	Latin name	Zone	Ht (cm/m)	Spr (cm/m)	NS Native	Description	
Jersey Pinnacle (Male) Japanese Holly	Ilex crenata 'Jersey Pinnacle'	6	2 - 2.5m	0.6 - 1.2m		Upright, dense growth habit. Glossy, dark green leaves. Prune to maintain size and shape. Male variety does not produce fruit. Full sun, to partial shade, moist, well-drained soil. Site protected from NW winter winds.	39.95 (11)
Lucky Marble Japanese Holly	Ilex crenata 'Lucky Marble'	6	1 - 1.2m	1 - 1.2m		Dense, compact, rounded habit. Glossy, tiny, evergreen, green leaves. Adds great texture to a partially shaded site. Moist, well-drained soil.	49.95 (8)
Sky Pencil (Sky Sentry) (Female) Japanese Holly	Ilex crenata 'Sky Pencil' (Sky Sentry)	6	1.2 - 3m	0.3 - 1m		Vertical, dense, exceedingly narrow, pencil-like column. Small, dark-green, evergreen leaves. Female variety, requires a male for fruit production. In spring, tiny white flowers, if pollinated, produce inconspicuous, black, rounded fruit in fall.	39.95 (25 L)
Inkberry	Ilex					Deer Resistant - Dioecious (Separate Male & Female Plants) - Fruit attractive to birds - Shelter from Winter Wind	
Compact (Female) Inkberry	Ilex glabra 'Compacta'	5	1 - 1.2m	1.2 - 2m	Yes	Cultivar of NS Native. Female variety. Needs a male pollinator to produce fruit. Slow-growing, compact form. Tight, oval to rounded shape. Thick deep green evergreen leaves change to olive-green during winter months. Greenish-white spring flowers produce pea-sized, black, berry-like fruit in fall that persist into winter until cleaned off by birds. Flowers are attractive to bees.	21.95 (38) 24.95 (38) 29.95 (1)
Shamrock (Female) Inkberry	Ilex glabra 'Shamrock'	5	2m	1.5m	Yes	Cultivar of NS Native. Compact, rounded, dense habit. Green, evergreen foliage. Female variety. Small, greenish-white flowers produce small, rounded black fruit. Requires a male plant for cross-pollination. Full sun to partial shade. Prefers rich, moist, acidic soil. Tolerates wet soil.	24.95 (40) 29.95 (1)
Blue Holly / English Holly	Ilex					Deer Resistant - Dioecious (Separate Male & Female Plants) - Fruit attractive to birds - Shelter from Winter Wind	
Dragon Lady (Female) Hybrid Holly	Ilex x aquipernyi 'Meschick' (Dragon Lady)	6b	3 - 6m	1.2 - 2m		Hybrid (<i>I. aquifolium</i> x <i>I. pernyi</i>) Upright, symmetrical, very narrow, pyramidal form. Female cultivar. Male blue holly (Ilex x meserveae) serves as a pollinator. Evergreen, spiny, dark-green leaves, with attractive, scarlet-red fruits, maturing in fall, remaining throughout winter until picked clean by songbirds. Full sun to partial shade. Moist, well-drained soil. Site protected from exposure to winter NW winds.	59.95 (2) 69.95 (14)
Female Blue Holly	Ilex x meserveae (female)	5	2m	2m		Green leaves, with red berries, male plant is need for berry production	39.95 (10) 44.95 (3) 49.95 (49)
Male Blue Holly	Ilex x meserveae (male)	5	2m	2m		Dark, glossy, blue-green leaves, white flowers in spring will cross-pollinate female varieties.	39.95 (1)
Blue Maid (Female) Blue Holly	Ilex x meserveae 'Blue Maid'	5	2 - 3m	2 - 3m		Female variety. Hardy and vigorous variety with glossy, blue-green leaves. Bright red fruit.	39.95 (33)
Blue Prince (male) Blue Holly	Ilex x meserveae 'Blue Prince'	5	2 - 3m	2 - 3m		Male variety. Dark, glossy, blue-green leaves, purplish stems. Will pollinate any female blue holly. Full sun to partial shade, moist, well-drained soil. Prune to shape in early spring before growth begins.	29.95 (50) 39.95 (8) 44.95 (10 AVK)

2023 Blue - New 2023 Common Name	Latin name	Zone	Ht (cm/m)	Spr (cm/m)	NS Native	Description	
Blue Princess (female) Blue Holly	Ilex x meserveae 'Blue Princess'	5	2 - 3m	2 - 3m		Broad, upright, female variety, with dark, glossy, blue-green leaves. Bright red fruit, needs male for berry production. Full sun to partial shade, average to moist, well-drained soil. Prune to shape in early spring before growth begins.	29.95 (15) 39.95 (8) 44.95 (30 AVK)
Blue Princess / Blue Prince Combo Male/Female Blue Holly	Ilex x meserveae 'Blue Princess' / 'Blue Prince' (combo)	5	2 - 3m	2 - 3m		Both female and male varieties in the same pot.	49.95 (9) (50 Ca)
Golden Girl® (Female) Blue Holly	Ilex x meserveae 'Mesgolg' (Golden Girl)	5	2 - 3m	2 - 3m		Female variety with bright yellow berries. Dark, glossy, blue-green leaves. Needs male blue holly pollinator for fruit production. Full sun to partial shade, average to moist, well-drained soil. Prune to shape in early spring before growth begins. Sheltered site away from NW winter winds.	49.95 (4)
Honey Maid (Female) Blue Holly	Ilex x meserveae 'Honey Maid'	6	3m	2m		Variegated holly, green leaves with irregular creamy-white margins, purplish-green stems. Attractive red berries. Needs male blue holly pollinator for fruit.	8.95 (Qt pot)
Mountain Laurel	Kalmia					Deer Resistant - Shelter from winter wind	
Ostbo Red Mountain Laurel	Kalmia latifolia 'Ostbo Red'	5	1 - 1.2m	1 - 1.2m		Buds are iridescent red flowers are deep pink. Leaves are twisted, very lush, full and vigorous. Ostbo hybrid.	44.95 (4)
Leucothoe (Fetterbush / Dog Hobble)	Leucothoe					Shelter from winter wind - Partial Shade - Humus-rich, acidic, well-drained soil	
Coastal Leucothoe	Leucothoe axillaris	6	0.6 - 1.2m	1 - 1.5m		Native to Eastern US. Spreading, vase-like, arching habit. Thick, shiny, dark-green leaves, tipped with clusters of slightly fragrant, urn-shaped white flowers in May/June. Leaves turn an attractive purplish-bronze hue in winter. Evergreen.	34.95 (5)
Leafscape™ Burning Love Leucothoe	Leucothoe keiskei 'Opstal50' (Burning Love)	6	60cm	60cm		Mound of narrow, lance-shaped, evergreen leaves emerge maroon to red in spring, maturing to glossy-green with red stems. In cooler weather, fall to winter colouring is scarlet. Small, white, bell-shaped flowers in spring. Prefers partial shade, rich, moist, well-drained, acidic soil. Excellent foliage accent in a woodland garden. Does not tolerate winter wind.	39.95 (3)
Scarletta Leucothoe	Leucothoe fontanesiana 'Zebliid' (Scarletta)	6	60-90cm	60-90cm		Low, arching, mound of glossy, deep green, evergreen leaves with bright scarlet new growth and burgundy red fall colour that extends through the winter as bronze to purplish-red. Prefers partial shade, moist, well-drained, acidic soil. Excellent foliage accent in a woodland garden. Does not tolerate winter wind.	29.95 (25 Sid)
Leafscape™ Little Flames Leucothoe	Leucothoe fontanesiana 'Little Flames'	6	45 - 60cm	45 - 60cm		Low mound, bushy habit. New foliage emerges red, changing to glossy, reddish-green. Dainty white flowers in spring (bloom on old wood). Fall and winter foliage colour changing back to reddish. Beautiful broadleaf evergreen for the woodland garden. Partial sun, rich, moist, acidic, well-drained soil. Does not tolerate exposure to winter wind.	39.95 (3)

Broadleaf Evergreens							red - Three or less in stock blue - New 2023-Supplier Price/(#Stock)
2023 Blue - New 2023 Common Name	Latin name	Zone	Ht (cm/m)	Spr (cm/m)	NS Native	Description	
Makijaz Leucothoe	Leucothoe fontanesiana 'Makijaz'	6	30 - 60cm	30 - 60cm		Mound of variegated, mid-green leaves that are marbled white in irregular patterns. New foliage emerges rich pink or bronze red. During fall & winter, foliage turns shades of burgundy-purple. Partial shade, rich, moist, acidic, well-drained soil. Does not tolerate exposure to winter winds.	39.95 (1)
Rainbow Leucothoe	Leucothoe fontanesiana 'Rainbow'	6	1.2m	1.8m		Beautiful new growth of white, pink and copper makes a great choice for a shady corner. Plum-purple in winter. Arching habit. Does not tolerate winter wind.	39.95 (15 Sid)
Twisting Red™ Coastal Leucothoe	Leucothoe axillaris 'Opstal20' (Twisting Red)	6	45 - 60cm	45 - 60cm		Mound of curly, twisted, glossy-green foliage that turns red in cooler weather. New foliage emerges red changing to green. Excellent texture plant in a partially shaded garden with morning sun exposure. Moist, acidic, well-drained soil. Similar to L. 'Curly Red' but has smaller leaves and deeper colouring. Excellent in woodland garden. Does not tolerate winter wind.	39.95 (3)
Mahonia / Oregon Grape							
	Mahonia					Shelter from winter wind - Edible fruit attracts birds	
Oregon Grape	Mahonia aquifolium	5	1.2m	1.2m		Blue-green, evergreen, holly-like leaves. Yellow flowers in spring, produce blue edible berries. Prefers partial to full shade. Needs more than one plant for pollination to produce fruit. Drought tolerant. Foliage has purplish hues in winter.	24.95 (5) 39.95 (3) 1gal. (18)
Compact Oregon Grape	Mahonia aquifolium 'Compacta'	6	.6 - 1m	1 - 1.2m		Mounding habit. Bronze-red new growth, turns glossy, deep green, and back to red in cooler weather. Full sun to partial shade, well-drained soil.	39.95 (2)
Creeping Oregon Grape	Mahonia repens	6	30cm	45cm		Groundcover. Low, spreading habit, by underground stolons. Blue-green, holly-like leaves. Clusters of deep yellow flowers in spring, purple berries. Foliage turns purplish in winter. Full sun to partial shade.	22.95 (22)
Heavenly Bamboo							
	Nandina					Native to Asia, Japan - Tender shrub - Shelter from winter wind - Not reliably evergreen in our climate	
Firepower Heavenly Bamboo	Nandina domestica 'Firepower'	6b	30 - 45cm	30 - 45cm		Dwarf. Attractive, compound foliage, resembling bamboo. Leaves emerge lime-green in spring, maturing to medium green. Red tints develop mid-summer, finally turning fiery-red in fall. This variety is more of a foliage plant, does not produce flowers or fruit.	24.95 (6) 39.95 (3)
Bonfire Heavenly Bamboo	Nandina domestica 'NanSid6' (Bonfire)	6b	1m	1m		Slender, distinctively swirly leaves. Bright orange-red new foliage. Older foliage blue-green, to gold and red. Very attractive in a container, overwinter container indoors. Full sun to light shade. Moist, acidic, well-drained soil.	29.95 (9)
Gulfstream Heavenly Bamboo	Nandina domestica 'Gulfstream'	6b	1m	1m		New leaves emerge scarlet red in spring and mature to blue green in summer. Small white flowers emerge in summer. In fall the foliage turns red again.	24.95 (6) 39.95 (5)
Harbour Dwarf Heavenly Bamboo	Nandina domestica 'Harbour Dwarf'	6b	45cm	60cm		Attractive, compound foliage. New growth emerges copper tones, turns green in summer, fall and winter foliage turns bright red. White flowers in spring, produce clusters of red berries in fall. Very attractive in a container, overwinter container indoors. Full sun to light shade. Moist, acidic, well-drained soil.	44.95 (15 Si)

Broadleaf Evergreens 2023 Blue - New 2023 Common Name	Latin name	Zone	Ht (cm/m)	Spr (cm/m)	NS Native	Description	red - Three or less in stock blue - New 2023-Supplier Price/(#Stock)
False Holly/Holly Olive	Osmanthus					Native to Japan, Taiwan - Deer Resistant - Shelter from winter wind	
Goshiki False Holly	Osmanthus heterophyllus 'Goshiki'	6b	1 - 1.5m	1.2m		Goshiki in Japanese translates to "five colours". New leaves emerge red and quickly turn green. Green leaves are daubed with spots of creamy white, grey-green and yellow-green. Needs a sheltered location. Full sun to partial shade. Average to moist, well-drained soil. Ht & Spr in 10 yrs.	29.95 (64) 59.95 (3)
Gulftide False Holly	Osmanthus heterophyllus 'Gulftide'	6b	2.4 - 3m	1.5m		Spiny, holly-like, shiny, deep-green leaves. Very dense form. Tiny, fragrant white flowers in fall. Needs a very sheltered location. Full sun to partial shade. Average to moist, well-drained soil. Shade tolerant and deer resistant, looks like English Holly.	44.95 (2)
Cliff-Green / Oregon Boxleaf / Mountain Lover	Paxistima					Groundcover - Protect from winter NW Winds	
Cliff Green / Mountain Lover	Paxistima canbyi	4	15 - 30cm	1 - 1.2m		Deer Resistant. Native to Appalachian Mtns of Eastern US. Dwarf, dense, spreading, broadleaf evergreen. Small, glossy, deep-green, evergreen leaves take on copper-green to bronzy tones in fall. Inconspicuous, small greenish-red flowers in spring. Roots where branches touch the ground, will form a sizable colony. Partial shade (morning sun). Moist, well-drained, soil, tolerates wide range of soil types.	10.95 (144 L) 24.95 (39)
Oregon Boxwood	Paxistima myrsinites	4	0.2 - 1m	1 - 2m		Native to PNW & AB. Low, mounded form. Small, glossy, evergreen dark-green leaves are arranged in pairs along ascending branches. Resembles boxwood or Japanese holly (Ilex crenata). Tiny, maroon flowers in summer. Grows on dry, rocky slopes fm Rocky Mtns to Pacific Coast. Full sun to partial shade. Well-drained soil.	18.95 (28)
